

General Notes:

- The proposed development is as follows:
 - Add 1 - Temporary Building and pavement markings as shown.
 - Water service to be connected to the City of Bryan water system, as shown.
 - Sewer Service to be connected to the City of Bryan sewer system, as shown.
 - Electric service to be provided underground as shown.
 - Vehicle lay of hose (VHL) is measured at 400', as shown.
 - At this time no additional landscaping is proposed.
 - Temporary Building elevation to be set at the same elevation as the existing building to be remodeled.
- Temporay buildings are permitted in the "I" Industrial zoning district only during the duration or abandonment of the project. Upon termination of the project the structures must be removed. This project will last approximately 6 months with the building being removed by August 1, 2007. At that time another siteplan will be submitted.
- The Site Plan to be submitted in August 2007 is to depict the installation of a sidewalk along Industrial Boulevard. At that time the site plan is also to depict landscaped end islands at the end of each end of the row of improved parking.
- This property does lie within the 100-year flood plain elevation according to Federal Emergency Management Agency (FEMA), Flood Insurance Rate Map (FIRM), Community Panel MAP NO. 48041C0137 C. effective date July 2, 1992.
- This property is zoned Industrial.
- The contractor shall be responsible for the containment and proper disposal of all liquid and solid waste associated with this project. The contractor shall use all means necessary to prevent the occurrence of wind blown litter from the project site.
- Concrete pouring is not required at this time for this project site.
- Solid waste metal dumpsters shall be supplied by City permitted contractors only.
- This site does not generate wastewater from cleaning equipment and/or vehicles.
- At this time this site does not service motor vehicles that would require holding vessels for used motor oil, anti-freeze, and oil filters.
- Normal parking lot run-off is the only run-off being generated at this time.

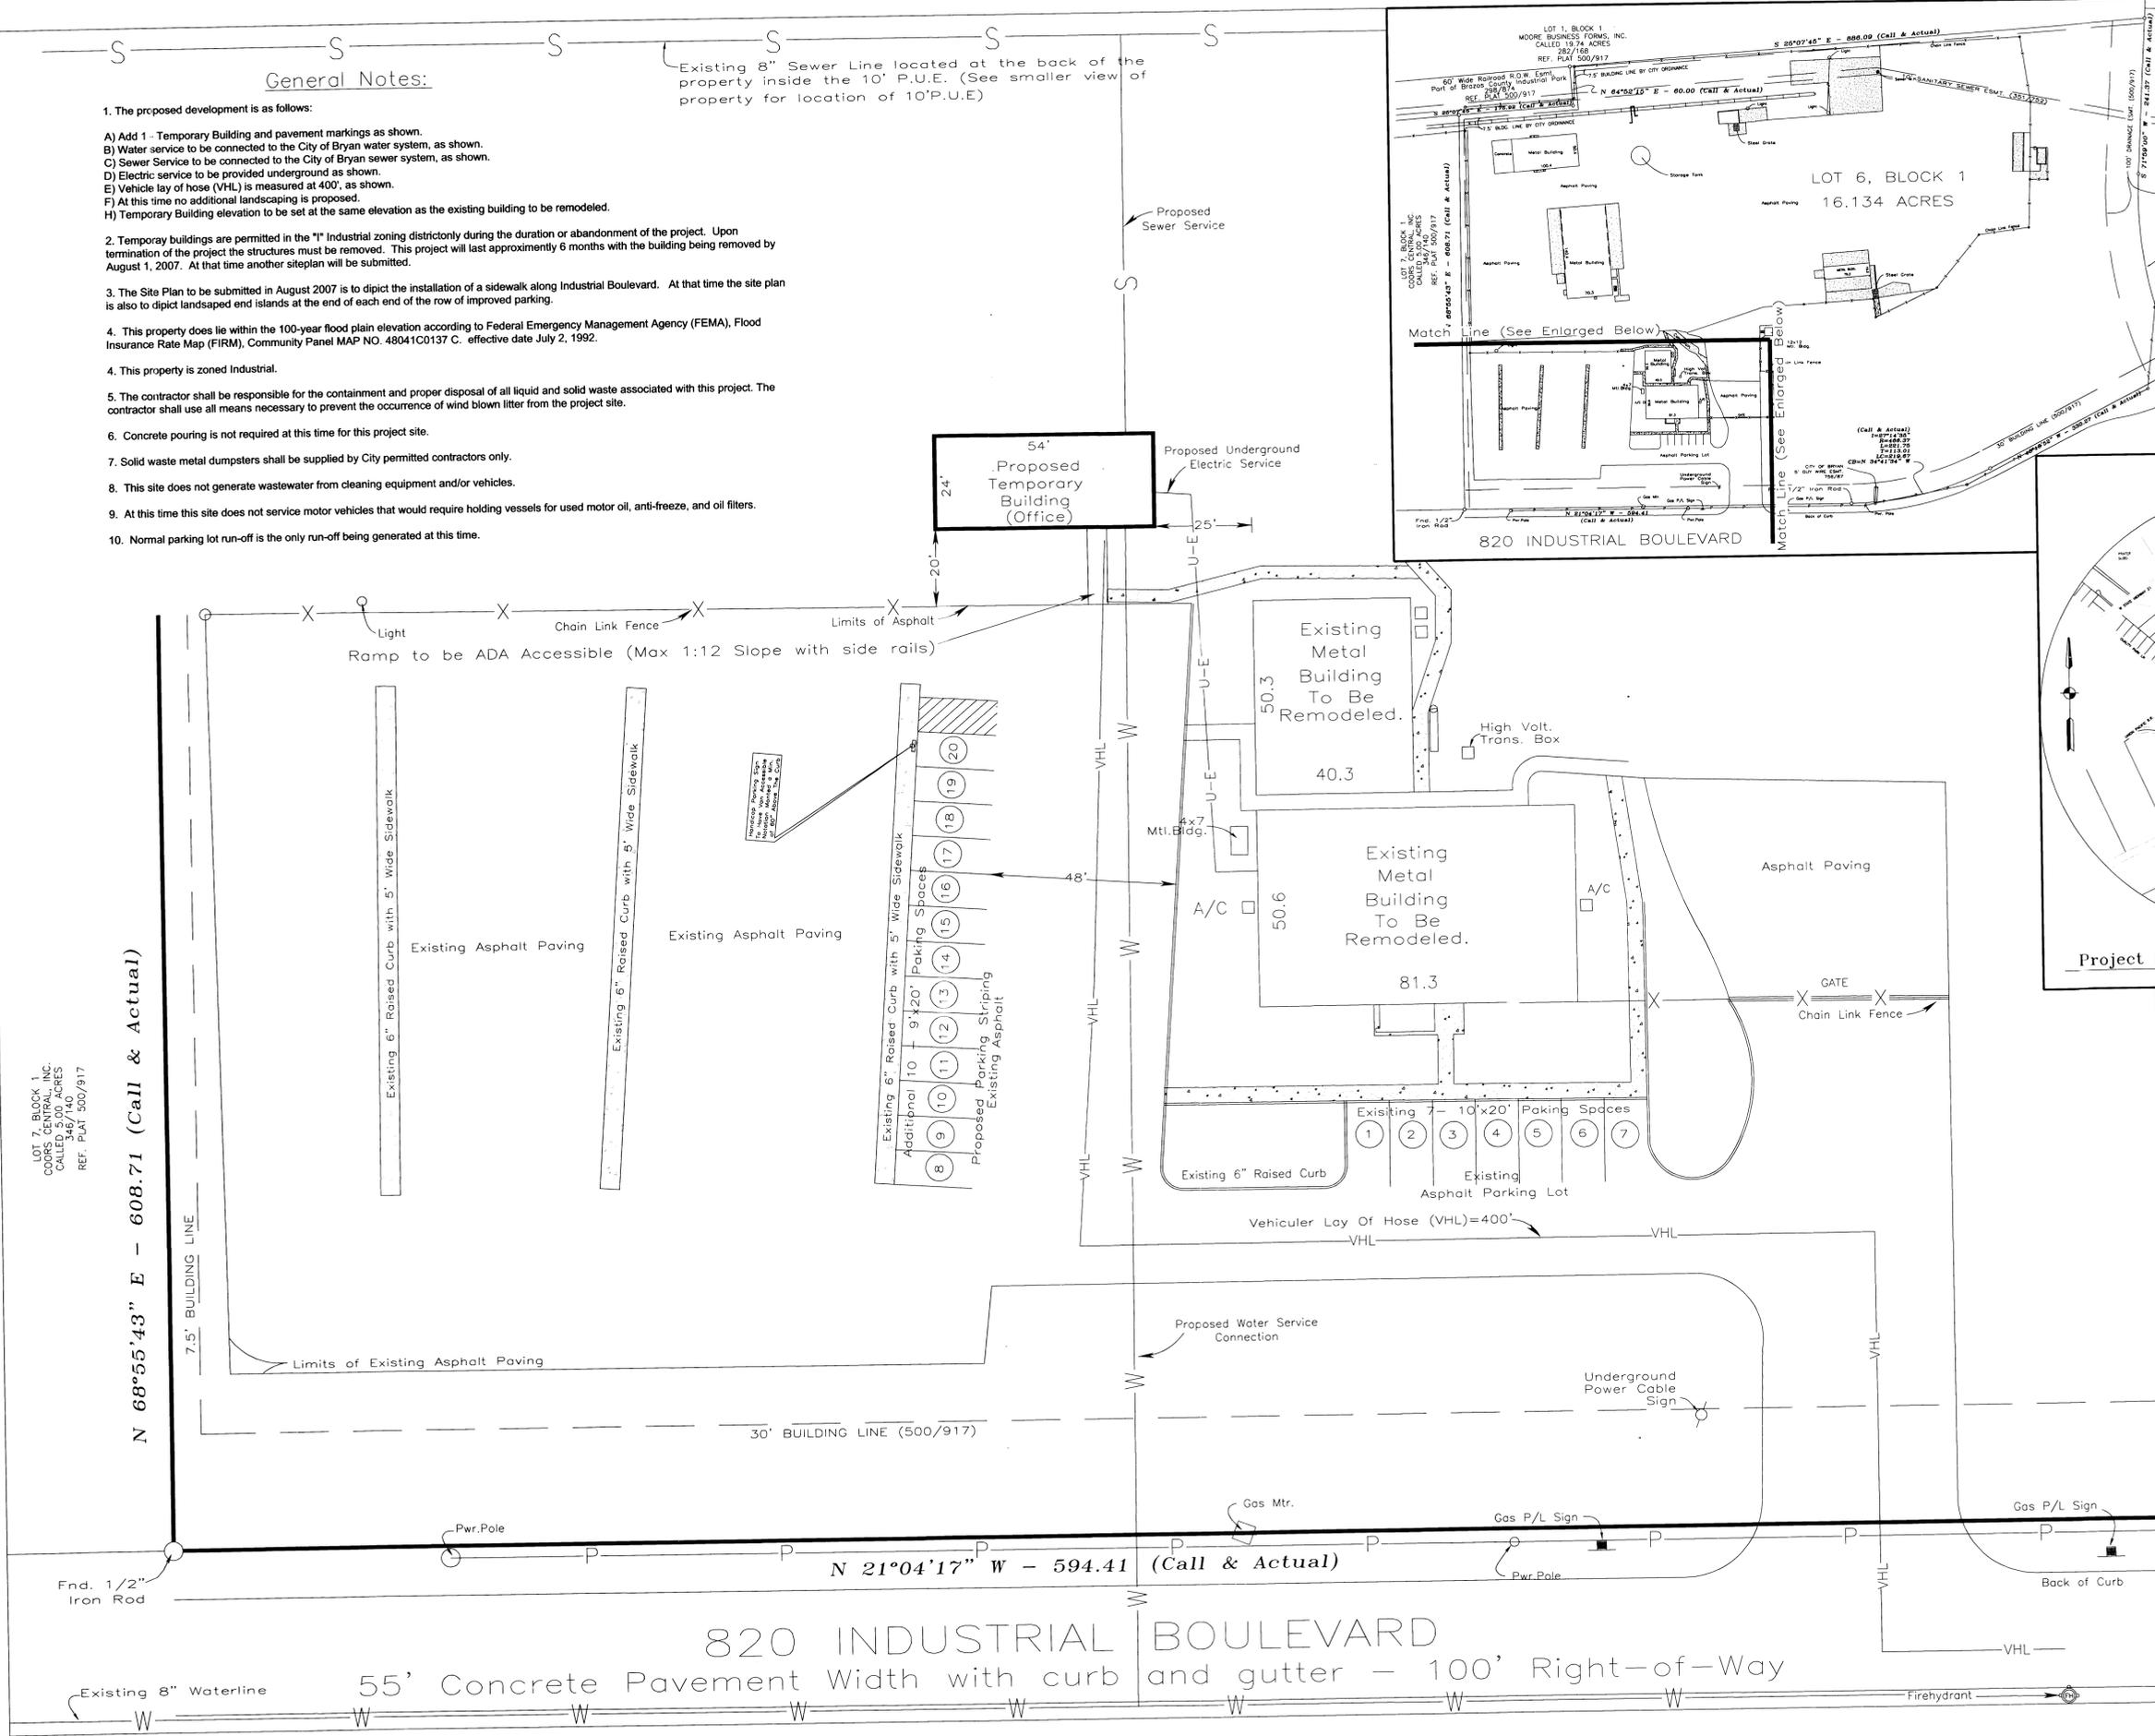

Existing 8" Sewer Line located at the back of the property inside the 10' P.U.E. (See smaller view of property for location of 10' P.U.E.)

Scale: 1" = 20'
