2013 Consolidated Annual Performance and Evaluation Report For Housing and Community Development City of Bryan, Texas

I. Narrative

A. Overview

This document serves as the City of Bryan's 2013 Consolidated Annual Performance and Evaluation Report (CAPER) for the Community Development Block Grant (CDBG) and HOME Investment Partnership (HOME) programs. This report is submitted in response to the performance requirements described in the Consolidated Plan regulations in 24 CFR 91.520.

The purpose of this report is to:

- provide the community and the U. S. Department of Housing and Urban Development (HUD) with a summary of resources available and program accomplishments,
- update citizens and HUD on actions taken during the past year to address needs as described in the 2010-14 Consolidated Plan, and
- describe progress made in the last year to address other priority needs and objectives.

B. Resources Available and Distribution of Funds

During the 2013-14 fiscal year (October 1, 2013 - September 30, 2014), the City of Bryan received \$907,014 in CDBG resources to address various community needs. An additional \$10,533.17 in current program year income was received from housing loans. The City received \$301,258 in HOME funds to support housing activities and \$70,789.57 in current year HOME program income. Prior available HOME funding for projects was \$377,407.52 (including prior year overdraw returned to line of credit, \$8076.51). Prior CHDO funding of \$46,085.00 (included in the amount above) was also available. Various other community organizations also had access to funds or resources available to meet community needs which are identified throughout the narrative in the following sections, as well as the City's distribution of funds. Funds distribution Charts are in the Appendix for CDBG and HOME.

C. Actions Taken to Address 2010-14 Consolidated Plan Priorities

In 2009-10, the City of Bryan developed and adopted the 2010-14 Consolidated Plan. Through the consolidated planning process, Bryan assessed its economic, housing, public services needs, public facility and infrastructure needs. This assessment led to a prioritized listing of Bryan's needs and the development of specific objectives for addressing those needs. The Consolidated Plan serves as a decision making tool to guide the investment of federal resources in the community.

The following four sections of the Narrative describe how the funds noted above were used to address local priorities as detailed in the Consolidated Plan. This information is divided into four sections to correspond to the plans described in the Consolidated Plan. The four sections are: **The Affordable Housing Plan; The Special Needs Plan; The Homeless Plan, and; The Non-housing Community Development Plan.** Please see the individual activity summaries and maps for additional information on each activity.

D. The Affordable Housing Plan

See Tables: Priority Housing Needs/Investment Plan (Table 2A), Annual Housing Completion Goals (Table 3B), Priority Community Development Needs (Table 2b) and Summary of Specific Annual Objectives (Table 1C, 2C, and 3A) in XIV.

Affordable Housing Priorities (in italics), followed by accomplishments:

- ◆ *Provide an adequate, affordable supply of rental residential property by providing technical assistance to property owners and by providing tenant-based rental assistance.*

The Bryan Housing Authority (BHA) and the Brazos Valley Council of Governments (BVCOG) have continued to provide a supply of Section 8 housing voucher program rental certificates, vouchers and rental assistance for low-income residents. BVCOG reports that, under the Housing Choice Voucher Program, 19,178 vouchers were provided throughout their service region during fiscal year 2013-14.

Several factors determine the increase in housing cost per family including: increasing local rental rates; job loss due to the recession; and addition of new family members. 98% of available funding from HUD was utilized BVCOG and BHA for rental housing assistance. BVCOG has one of the highest proportions of families working toward self-sufficiency in the nation. Over 17% of all HUD assisted-families are working toward independence from government assistance. BVCOG reports that 18 new HUD-assisted families have graduated off government assistance in the BVCOG Family Self-Sufficiency program, saving an estimated \$115,000 per year in assistance.

BHA continued to meet the housing needs of low-income clients during this reporting period. BHA's 2013 Capital Fund grant program was awarded and following is the distribution of funds. The 2013 CFP was in the amount of \$ 368,510, with \$14,500 for management improvements, \$48,847 for operations, \$73,302 in administration, \$10,802 for fees and cost, \$90,000 for site improvement and \$131,059 for dwelling structures.

During PY2013-14, the Housing Authority was finalizing its ROSS-Service Coordinator Grant for 2011-2014. The three year grant was for \$240,000. BHA submitted a renewal application in February 2013 to continue the ROSS grant and was awarded another in the amount of \$245,000 for 2015-2017. BHA finalized its playground project which updated playscapes and surfacing of playgrounds located on Dansby and Jordan Loop. During this reporting period, BHA had an occupancy rate of approximately 97%.

The Bryan Housing Authority continues to work with the residents on the following: parenting skills, dropout prevention with the youth, domestic violence, substance abuse, health fairs and healthcare assistance, pregnancy outreach, budgeting, low income homeownership program, GED classes and higher education, youth development/youth leadership, computer classes, assistance with Social Security, coupon shopping and food pantries. BHA is also initiating character building sessions during the summer for neighborhood youth, and fitness programs for adults as well as a Safe Sitter Program for our youth.

BVCOG has three priority-groups for the Housing Choice Voucher (HCV) waiting list, such that when these groups apply for assistance, their application will move to the top of the waiting list. After conducting a survey of local service-provider, priority groups that BVCOG identified were homeless men and women; victims of domestic violence; and military veterans.

There are four other preferences for the HCV Program’s waiting list, numbered in order of priority: 1a) Households with a person who has a disability; 1b) Elderly households; 2a) Foster youth who have left the foster care system within the last 8 years; 2b) Students with less than two-years to graduate from an institution of higher education. This allows BVCOG to effectively provide a long-term housing solution to those families who most need the assistance in the City of Bryan.

Both the Cities of Bryan and College Station have been supportive of innovative ways to provide housing developments that are determined to meet needs of the local special needs and lower income populations. Listed below are the Low Income Housing Tax Credit, Affordable Housing Disposition Program, and HOME properties that provide reduced rent or accept Section 8 vouchers for special needs groups, including homeless, elderly, handicapped, mentally impaired, and low to moderate-income individuals. Average occupancy rate for Bryan units during this reporting period was approximately 94% and for College Station units was 91% (Source: Texas Department of Housing and Community Affairs (TDHCA), Vacancy Clearinghouse).

Overall the occupancy rate for both older and newer multi-family housing was approximately 95.7 percent during this reporting period (U.S. Census Bureau – 2013 American FactFinder 1-Year Estimates).

According to the City of Bryan’s Development Services Department’s building reports,

private sector developers received 206 permits in FY2013 for new multi-family units (apartments, duplexes, etc.) in Bryan, valued at \$27,595,818. Another 211 permits were issued for single-family dwellings totaling a value of \$6,716, 873. In total, according to the U.S. Census Bureau, there are an estimated 31,484 residential units (single-family and multi-family units) in Bryan.

- ◆ *Expand the supply of decent, safe and affordable housing through the development of new single-family residential property.*

Private For-Profit and Non-Profit Developer Relationships

The Community Development Services (CDS) staff coordinated with and provided technical assistance to 6 different developers of affordable housing, to include 2 private for-profit developers and 4 non-profit developers, including the local Habitat for Humanity affiliate and the city's three CHDO developers (see Private Developer Technical Assistance below).

Brazos Valley Affordable Housing Corporation (BVAHC), Brazos Valley Community Development Corporation (BVCDC) and Area Agency on Aging

BVAHC received and administer HOME funds, both CHDO and sub recipient, on behalf of a consortium serving a 10 County region excluding the cities of Bryan and College Station. 2010 was the last year funds were received and were still available in this program year. During this reporting period 6 homes were built by the BVAHC from a combination of CHDO Funds, CHDO proceeds and borrowed capital. BVAHC, a Community Development Financial Institution – CDFI, also provided affordable permanent mortgage financing and interim construction financing for the development and purchase of 2 affordable, single-family homes. Additionally, approximately 50 households were counseled on various issues of homeownership through BVAHC's Homebuyer Education and Financial Counseling efforts through weekend and evening classes and one-on-one meetings.

Habitat for Humanity

Habitat provides educational and volunteer opportunities that assist low to moderate-income families to become economically and socially self-sufficient. The organization promotes volunteerism and also partners with local nonprofit service providers to improve housing in the Bryan/College Station community. Habitat is able to provide interest free 20-30 year mortgages through volunteer labor, staff management, and donations.

From Oct. 30, 2013-Sept. 30, 2014, Habitat dedicated 14 homes for low-income families in Bryan and College Station and started three others. Over 1,560 volunteers contributed nearly 17,000 hours of labor.

The construction this year included the completion of a new neighborhood in Bryan, Faith Subdivision. All 24 houses were built in 18 months, with the last completed in April 2014. Faith Subdivision includes a playground and pavilion.

Habitat for Humanity is celebrating its 25th anniversary in Bryan-College Station, and has completed 246 homes. The organization anticipates building another 15-18 homes in the current fiscal year.

Private Developer Technical Assistance

Other technical assistance was provided by CDS staff to 6 different private developers – both for-profit and non-profit. Technical assistance provided included information

related to city development processes, CDS housing programs, local housing market needs and qualification criteria for CDS clients.

◆ ***Reduce isolation of income groups by decentralizing housing opportunities and revitalizing deteriorating neighborhoods.***

To reduce isolation of lower income groups, city housing assistance programs are available citywide for eligible clients, and development of new affordable housing is encouraged in multiple neighborhoods. Likewise, mixed income development is also encouraged throughout the community for the same reason. To achieve this priority, development of new, affordable housing units was complete (HOME activities 835 and 837 – with 837 sold, and 835 not yet sold by year end).

Although no funds were provided for a Code Enforcement Officer, the City did report that Code enforcement efforts were carried out by the City using general funds, so as to eliminate blighting influences in the promotion of safe, livable neighborhoods and to promote redevelopment. Code enforcement actions were performed citywide. During this reporting period (Oct. 1, 2013 - Sept. 30, 2014), activities included area clean-ups, enforcement of code violations, and public education. Code enforcement actions included approximately 2,200 cases processed.

◆ ***Expand the supply of decent, safe and affordable housing through the rehabilitation of existing residential property.***

Rehabilitation/reconstruction was underway and/or completed using CDBG and HOME funds on private, owner occupied, and residential structures (HUD CDBG activities 888, 904 and 905, and HUD HOME activity 922 and 930) with 3 reconstruction projects completed during this reporting period (HUD activities 888, 904 and 905) and two projects underway but not completed (HUD activity 922 and 930). This includes 54 minor repair projects all completed (HUD activities 885 and 913). A total of \$834,980.63 (includes \$819,036.08 in CDBG and \$15,944.55 of HOME funds) was used in this reporting period for both rehabilitation/reconstruction, minor repair, and program delivery expenditures to decrease the substandard housing in the City. All 57 recipients for completed projects were low and moderate income homeowners (100%), with 17 households (0-30% income), 17 households (31-50%), and 23 household (51-80%).

Voluntary demolitions of vacant, dilapidated structures was performed using CDBG funds for the removal of blighting influences and the future development of affordable housing units. During this period, 1 demolition was completed (HUD activity 828) and two others were underway (HUD activities 931 and 932) using a total of \$1,287.41.

Owner occupied homes were examined and evaluated to determine health and safety issues for residency while the rehabilitation was being completed. Residents were given guidelines to provide coverage of possessions to eliminate dust, and any possible damage to personal property. All utilities were maintained in a safe, structured environment to keep residents in a comfortable living area, yet retain the ability to perform the rehabilitation. According to City guidelines, and in all but the substantial rehabilitations, the homeowner remained in the home, with staff arranging for rehabilitation to be done in stages. Residents who do not remain in their home during rehabilitation do so because of personal preference. Staff continues to review and revise existing housing programs to better meet client needs and extend appropriate assistance to more residents whenever possible.

Brazos Valley Area Agency on Aging (BVAAA)

BVAAA coordinates with both non-profit and for-profit entities in providing minor home repairs in Bryan-College Station and the surrounding region. In this reporting period, 5 homes were repaired for elderly homeowners, with the average cost per home being \$1,400. The cost of repairs is leveraged, when possible, by utilizing non-profit, volunteer labor and donated funds and materials, coordinated at the regional level by the Brazos Valley Council of Governments. The City coordinated with and provided support to the BVAAA related to needed services for senior citizens in the community.

Texas A&M University - The Big Event

In addition to formal non-profit agency efforts, the Texas A&M University student body carries out the nation's largest student-led community service project, called The Big Event. This event took place on March 29, 2014 and many of the projects addressed home maintenance issues for private homeowners, often lower income and/or elderly citizens. These projects include: painting, cleaning, lawn care and even some minor home repairs. During this reporting period, 20,503 students completed over 2,200 projects in the local community.

◆ *Conserve energy resources by providing weatherization technical assistance to low to moderate-income persons.*

All City housing assistance is designed to ensure high energy efficiency, for both rehabilitation and new construction of affordable housing. The City has adopted the most recent nationally recognized energy code recommendations and employs those in its housing programs. The Brazos Valley Community Action Agency does likewise in the administration of its federally funded Weatherization Program. In this reporting period, BVCAA's Weatherization Program used approximately \$1,500,000 in federal funds to weatherize approximately 250 residential units in the Brazos Valley Region

◆ *Expand home ownership opportunities for very low, low and moderate-income persons.*

5 families consisting of 17 people became homeowners through the City of Bryan's Home Buyers Assistance Program (down payment and closing cost assistance) and funds from the Acquisition program. Approximately 70 clients were provided informational material and/or home buyer counseling by BVAH, Habitat and the City's Community Development Services staff. While many did not go on to become homebuyers, they learned the steps in the process, were able to assess their ability to buy, and to identify obstacles, and access resources available. One additional down payment project was complete as part of HUD HOME activity 837, a housing development activity, as reported on page 5.

There was a total of \$48,768.60 (includes \$40,473.44 in program income) of HOME funds expended for down payment assistance, with an additional \$465,400 combined home buyer and private mortgage dollars leveraged for these purchases. HOME funds used for HUD activities represented 5 recipients for completed projects that were low and moderate income homeowners (100%), with 0 households (0-30% income), 3 households (31-50%), and 2 households (51-80). HUD activity numbers 909, 910, 923, 924 and 925 are were this program year activities, program delivery and were closed this reporting period. Activities 926 and 927 were still open at year's end.

Another agency, BVAHC, also funds down payment assistance and the development of single family homes. The agency offers affordable mortgage lending to low income households. During this reporting period, BVAHC made 4 first-time homebuyer down

payment assistance loans in their service area. Homeownership counseling/training is provided to lower income citizens by BVAHC, the City of Bryan, and other local agencies. Approximately 50 were counseled on various issues of homeownership through weekend BVACHC's classes and one-on-one counseling meetings. Habitat for Humanity also trains and counsels clients hoping to become homeowners and constructs affordable dwellings for lower income home buyers. During this reporting period Habitat counseled approximately 20 clients on home buying issues.

E. The Homeless Plan

The City participates in the Brazos Valley Coalition for the Homeless (BVCH) and has been an integral part of the Continuum of Care (CoC) Process. The CoC was developed through a planned process in conjunction with the BVCH and based upon historical data, surveys, and the knowledge of the many different providers' staff. The City, as part of the BVCH worked closely with coalition members to conduct a point-in-time count for sheltered and unsheltered homeless, subpopulation groups, and identify gaps and needs for housing and supportive services.

Unmet housing needs were agreed upon by the BVCH after a phone survey was conducted polling agencies staff for their opinion of unmet needs that exist within their target population. As recommended by Martha R. Burt and Carol Wilkins in the CSH publication, "Estimating the Need", (www.csh.org), the BVCH chose to use a method that combined the Use of Expert Opinions by Emergency Shelter staff, Transitional Housing staff and direct care workers during the course of a year with a Review of Personal Characteristics.

The most recent "Shelter & Housing Inventory Point-In-Time" count was conducted on January 23, 2014 and included a listing of current emergency, transitional housing and permanent supportive housing inventory (see attached) continuum of care inventory, as well as those under development. Specifically, the definitions used for survey purposes were: 1) Emergency Shelter: Buildings designed to house persons experiencing homelessness and 2) Transitional Housing: Temporary and transitional housing programs for persons experiencing homelessness and which may include supportive services. Homeless subpopulations were tallied for "sheltered" persons in each category.

In addition, for unsheltered persons, a further attempt was made to indicate the name of the person and identify the person's "usual geographic location". Unmet housing needs were agreed upon by the BVCH after members were polled regarding the data obtained from the count and housing and supportive services staff were also polled for their opinion of unmet needs that exist within their target population. Quarterly meetings are also held throughout the year ensuring that the continuum of care provides for HUD's responsibilities for the homeless management information system (HMIS).

BVCH continued to meet and partner with local agencies to assist in better coordination of homeless services, including transitional housing, emergency housing, permanent housing, and supportive services. The Coalition met 4 times in this reporting period. Priority housing homeless issues were as follows: 1) permanent supportive housing, 2) permanent affordable housing and 3) transitional shelter and supportive services. Committee meetings had a continued emphasis of concentrating on goals to eliminate chronic

homeless as well as general population homelessness. The Coalition continued quarterly meetings, applied for Continuum of Care funds and worked towards the implementation of HEARTH.

The Coalition continued to concentrate efforts on bringing in new community resources from all eight counties. Other efforts focused on Committee organizing such as establishing contact with other Coalitions to utilize and share resources, Committee meetings, workshops on HMIS/HEARTH, reviewing and updating the discharge plan, and working on the Continuum of Care plan, including for both homeless and chronic homeless goals. Following are the Coalition's priorities and accomplishments:

- ◆ ***Expand economic opportunities for very low, low and moderate-income individuals to assist them in achieving self-sufficiency.***

The City and other partnering agencies provided workshops, seminars and individual counseling on economic development loan programs and other local economic assistance programs such as the City's Economic Development Office, the Brazos Valley Council

of Governments, and the Brazos Valley Small Business Development Center (SBDC), to assist business owners with business plan development and financing of business expansions and start-ups (high priority).

The Brazos Valley SBDC is a business consulting and training center of the University of Houston SBDC Network. The UH SBDC Network serves 32 counties in Southeast Texas. The SBDC is funded in part through a cooperative agreement with the U.S. Small Business Administration. In their last program year (Oct 1, 2013 to Sept. 30, 2014), they reported the following economic development assistance accomplishments for the Brazos Valley Office: SB seminars held - 11; seminar attendees - approx. 98; clients counseled – 388; new clients assisted – 167; new business start-ups – 26; jobs created – 183; new capital attracted/generated - \$8,150,000.

The Brazos Valley Council of Governments (BVCOG) administered a Revolving Loan Fund Program assist businesses with loans ranging from \$10,000-\$150,000. BVCOG also operated its Family Self-Sufficiency program to help participants work to become free from government assistance and achieve financial independence.

Administrative funds drawn were \$179,304.28 (HUD activity 911) which was spent on CDBG program administration and planning; providing for the general management, oversight, and coordination of the above described activities.

◆ ***Expand economic opportunities to eliminate slum/blighted areas or spot slum and blight.***

Although no funds were provided for a Code Enforcement Officer the City did report that Code enforcement efforts were carried out by the City using general funds, so as to eliminate blighting influences in the promotion of safe, livable neighborhoods and to promote redevelopment. In an effort to eliminate slum and blight, his department also coordinated the demolitions of dangerous structures ordered demolished by the Building Standards Commission. Approximately 2,200 code enforcement actions were performed citywide. During this reporting period (Oct. 1, 2013 - Sept. 30, 2014), activities included area clean-ups, enforcement of code violations, and public education. There were actions taken on the following violations: abandoned vehicles – 11; ordered demo or repair of structures – 91; junk vehicles – 175; parking – 128; signs – 47; nuisance (weeds & grass) – 1,028; zoning – 20; container in right-of-way – 32; container maintenance – 16; blocked dumpster – 2; property maintenance – 2; trailer/RV/Semi violations – 10; environmental nuisance – 78; illegal dumping – 129; illegal can usage – 9; inflow & infiltration – 300; prohibited discharge – 102; non-serviceable waste – 68; and uncontained debris – 24. Also, 22 demolitions of dilapidated, vacant structures were completed by the City (using non-federal, local funds,) to eliminate slum and blight influences and/or to provide additional affordable housing opportunities. Over 60 other dilapidated structures were demolished by owners, using private funds, in response to Building Standards Commission notices and orders.

In addition to formal code enforcement services, the Texas A&M University student body carries out the nation's largest student-led community service project, called The Big Event. Many of the projects address code type issues on private property and also assist homeowners with other maintenance or home improvement / beautification projects. During this reporting period, 20,503 students completed over 2,200 projects in the local community.

H. Changes in Program Objectives

No changes in priority needs or objectives were made during the reporting period.

I. Geographic Distribution

CDBG and HOME funds are distributed throughout the community based upon need. Because low income, elderly, disabled and special needs homeowners and renters reside throughout the city, housing assistance is available citywide. Homeless persons and potentially homeless also reside throughout the City making the need for shelter and housing a citywide activity. Services provided for the homeless population are located to provide maximum accessibility. Public facilities and infrastructure are provided in areas of the City where at least 51% of the population meets low and moderate-income guidelines or the clients are at least 51% low to moderate income eligible. Information on project locations is provided in the summary for each activity and also in a map format at the end of this report.

J. Actions to Address Other Priority Needs

The City of Bryan also took the following actions to help alleviate obstacles, identified as part of the 2010-14 Consolidated Plan process, to meeting the City's identified needs.

K. Meeting Under-Served Needs

The primary obstacle to meeting underserved needs remains lack of funding. The City worked with local non-profits to research funding opportunities and to prepare funding applications. Examples of this cooperation include the City of Bryan review of Twin City Mission's application for Continuum of Care Grant funds on an annual basis. Twin City Mission also received Tenant Based Rental Assistance funds, with renewal of continuum of care grants from HUD.

In addition, the City, through the Brazos Valley Coalition for the Homeless, provided technical assistance to Twin City Mission, which applied for and was awarded: one new planning grant of \$13,706; an HMIS renewal grant of \$78,206; a Rapid Rehousing grant of \$61,363; a Supportive Housing/Transitions grant of \$166,189, and applied for (but not yet notified of award) an HMIS Expansion Grant totaling \$259,686.00 for 3 years which will enable more organizations within the Brazos Valley Coalition for the Homeless to participate actively in the HMIS reporting process.

United Way of the Brazos Valley (UWBV) brings the community together to find solutions that change people's lives by advancing education, financial stability, and health; **Education** – early education for youth and education that leads to a stable job; **Financial Stability** – that can support a family now and through retirement; and **Health** – that includes healthy lifestyle choices, affordable health care and a safe community for everyone.

Community Impact Grants

UWBV provides support to 21 nonprofit organizations in the Brazos Valley region through its Community Impact Grant program, awarding \$350,000 annually in 2013 - 2016. UWBV Partner Agencies have identified specific outcomes as a part of UWBV's Community Impact Plan which they will address. An additional \$85,000 was awarded to families in 2014 through Bryan Family Match. In Spring 2014, the Youth Leadership Cabinet awarded \$5,450 to nine local agencies.

State Employee Charitable Campaign

UWBV is the local campaign manager of the State Employee Charitable Campaign. Each year, the Campaign allows state employees to designate their gifts to an approved organization. As the local campaign manager, UWBV facilitates this campaign. The 2013 campaign goal was \$629,000 (\$584,545

was pledged), and UWBV is currently collecting these funds. To date, approximately 80% of funds have been collected. Currently, approximately 70% of funds raised are designated to 25 local organizations.

2-1-1 Texas

UWBV offers the 2-1-1 Texas program to the general population of the Brazos Valley Region (approximately 350,000). In PY2013-14, 2-1-1 Texas - Bryan/College Station responded to over 48,000 calls. The program is funded by the State of Texas Health & Human Services Commission (\$334,000) and United Way of the Brazos Valley (\$15,000). 2-1-1 Texas has three main goals: 1) provide information and referrals on local, state and national resources for health and human service needs; 2) provide local and state response information in times of emergency/disaster; 3) provide regional data to community decision makers concerning community needs and trends. The City of Bryan and City of College Station continue to work with and serve on UWBV's 2-1-1 Information and Referral Advisory Committee to accomplish the following:

- Create greater awareness of available information and referral services;
- Coordinate existing services and maintain a comprehensive central database of health and human services information; and
- Provide educational presentations on the viable usage of 2-1-1.

Goal Savers (Individual Development Accounts)

United Way, through a partnership with Brazos Valley Community Action Agency, continued the IDA (Individual Development Account) program, a matched savings program helping individuals/families build assets. Clients save an agreed-upon amount of money for the purchase of a home, starting a small business or furthering their education. Clients are also required to complete a 10-hour financial education course from a list of approved curriculum. Once clients reach their savings goals, funds are matched 2:1 and the client makes their asset purchase. In 2012, the program was renamed GoalSavers to better market to the community. During this reporting period, 36 clients were involved in the GoalSavers program with seventeen making Asset Purchases (3-home ownership, 11-education, 3- small business).

Financial Fitness Center

UWBV partnered with BVAHC to serve low-to-moderate income clients with one-on-one financial coaching through the Financial Fitness Center (FFC). The purpose of the FFC is to help individuals and families become more financially stable. At the FFC, clients receive free one-on-one financial coaching and connection to community resources that can assist clients in addressing credit issues, building savings, and building assets. These Financial Fitness coaches were also members of the city coordinated Bank in Brazos Valley Coalition. Since opening in November 2012, the FFC has served approximately 130 clients and addressed more than 300 via financial stability presentations.

Community Development staff provides technical support to the local United Way by serving on several committees such as the Information and Referral Regional Advisory Committee, Co-Chairing the Community Impact Committee, and assisting with the City's internal United Way community campaign. In addition, City staff served on several committees for Project Unity, a non-profit agency which provides collaborative support to other non-profits through quarterly meetings to provide better access to services.

Project Unity's supervised access and visitation program, Safe Harbour, received \$22,504.93 from the City of Bryan, to assist with eligible operating expenses to provide supervised visitation between non-custodial parent and children in a safe, child-friendly environment. Additional expenditures included \$2,035.06 drawn for program delivery. Visitations are court ordered supervised visits under the supervision of trained staff and volunteers. Safe Harbour also provided parenting education and assisted in the development of shared parenting plans, fathering support groups, and case management services for fragile families. During this reporting period, Safe Harbour served 223 unduplicated clients.

Local resources of \$169,500 (Citibank, City of College Station, Bryan Texas Utilities, United Way and

private donations including Wells Fargo charitable trusts) supported programs and satisfied “match” requirements of other grants. Through these and other agency programs, Project Unity staff provided case management services (including utility assistance, housing assistance, clothing assistance, fee assistance, transportation assistance, etc.) to 823 households and facilitated meetings for 80 partners with more than 250 members.

L. Foster and Maintain Affordable Housing

The City maintains a strong commitment to preserving and maintaining the existing stock of affordable housing. HOME funds specifically target housing activities for low-income persons and families. During the planning process of the 2010-14 5-Year Consolidated Plan, the Community Development Advisory Committee continued to explore the issue of affordable housing and presented housing priorities to the Bryan City Council. As a result of their interaction with professionals in the housing industry, the public, Community Development Services staff and housing providers, the following priorities were identified:

- ◆ *Provide an adequate, affordable supply of rental residential property by providing technical assistance to property owners and by providing tenant-based rental assistance.*
- ◆ *Expand the supply of decent, safe and affordable housing through the development of new single-family residential property.*
- ◆ *Reduce isolation of income groups by decentralizing housing opportunities and revitalizing deteriorating neighborhoods.*
- ◆ *Expand the supply of decent, safe and affordable housing through the rehabilitation of existing residential property.*
- ◆ *Conserve energy resources by providing weatherization technical assistance to low to moderate-income persons.*
- ◆ *Expand home ownership opportunities for very low, low and moderate-income persons.*
- ◆ *Provide housing and supportive services for special needs populations.*

Consequently, 2013 CDBG and HOME funds were available for use to address these needs and those identified in the 2010-14 5-Year Consolidated Plan through the following activities:

Housing Infrastructure/Re-development Assistance - Technical assistance to private developers building single-family residential units.

Home Owner Housing Assistance - Rehabilitation or reconstruction of substandard, low-income owner occupied homes.

Down Payment Assistance - Closing cost; down payment and technical assistance for homebuyers.

New Housing Construction Assistance - Assistance to developers of affordable housing including CHDO and Habitat projects, senior/special needs housing, LIHTC developments.

Minor Home Repair – Assistance to low-income, home owners with urgent and minor repairs.

Voluntary Clearance/Demolition – Assistance in the removal of vacant and dilapidated structures, thereby addressing blight and promoting redevelopment

Voluntary Acquisition – Assistance in the identification and acquisition of property that can be used for the

A total of \$914,947.08 in housing activity funds spent calculates as following:

CDBG Funds \$820,323.49 – Not including Public Service Agency funding or Administration and not including overdraw for HUD activity 888 (which was returned to the line of credit):
Includes current year program income of \$10,533.17.

HOME Funds of \$94,623.59 – Not including CHDO or Administration:
Includes current year program income of \$63,289.57 spent.

These funds were expended for housing and related activities (includes all rehabilitation/reconstruction, program delivery, interim assistance, down payment assistance, acquisition, demolition, and infrastructure activities. The total includes current year expenditures drawn on IDIS, and current report year payables. These funds leveraged an estimated \$1,469,968 from other private funds, fee waivers, and mortgage lending.

The City also continued to develop its relationship with non-profit housing and service providers to improve the quality and quantity of affordable housing stock locally, including: Habitat for Humanity-property donations, Brazos Valley Community Action Agency- weatherization and homebuyer counseling programs, Elder Aid - housing repairs, Brazos Valley Affordable Housing Corporation- joint effort homebuyer seminars, CHDO project support, Decent Affordable Safe Housing (D.A.S.H.)-technical assistance determining housing needs of community, Brazos Valley Homeless Coalition-technical assistance for funding, Home Builders Association- contractors and marketing efforts.

M. Actions to Affirmatively Further Fair Housing Choice

Affirmatively Furthering Fair Housing

As part of its mission to administer federal grants, the City of Bryan Community Development Services Department is required by Executive Order 12892 to affirmatively further fair housing in the programs and activities within its jurisdiction. The City of Bryan has adopted a Fair Housing Ordinance under Chapter 58, Article II of the City of Bryan Code of Ordinances and conducts an Analysis of Impediments to Fair Housing Choice update every five years to coincide with the 5-Year Consolidated Plan process.

During this reporting period, and in the process of developing the its 2013 and 2014 Consolidated Annual Plans, the city prepared a Fair Housing Narrative Statement (FHNS) that provides a listing of Fair Housing Activities it expects to carryout in subsequent program years. The city's FHNS provides an overview of its Fair Housing efforts as well as information on the city's:

- Nexus to Affirmatively Further Fair and Affordable Housing
- Analysis of Impediments to Fair Housing
- Fair Housing Action Work Plan
- Affirmative Marketing Policy
- Affirmative Marketing Techniques

In its Fair Housing Action Work Plan, the City to provide a nexus between twelve observations made in the city's Consolidated Plan regarding Fair Housing locally. For each of the observations, action items were developed identifying: activities to promote Fair Housing; completion dates, and; the source of funds to be used.

In its 2013 CAP and based on FHEO goals of the City's community development programs, the City provided a nexus to affirmatively further fair and affordable housing. Following is a listing of the proposed FHEO actions.

- Provide notices and market affordable housing programs, properties and services in Spanish language newspapers, radio and/or television.
- Make Fair Housing and Affirmative Marketing information available to the public by holding multiple public hearings at public meetings during the program year.

- Hold all public meetings in ADA accessible facilities and ensure that housing projects comply with FHEO and ADA accessibility requirements.
- Make housing program information available to the disabled and non-English speakers by utilizing ADA accessible facilities and making translation and sign language services available.
- Make information on housing programs available to local churches, churches and civic groups that serve lower income persons and/or protected classes.
- Contact local mortgage lenders and making FHEO information available to them as they carry out CRA programs and activities.
- Market available affordable units to lower income persons and/or protected classes by providing information to local churches, civic groups and agencies that serve them (i.e., 211Texas, United Way, Unity Partners, BV Council of Governments).
- Host a Contractor's Breakfast promoting FHEO topics during the NCDA CDBG week.
- Distribute Fair Housing posters to partnering entities, such as: city funded Public Service Agencies; the Council of Governments, etc.
- Provide FHEO information and/or materials to local neighborhood associations.
- Partner with Texas A&M's Center on Disability and Development, Brazos Valley Council of Governments, City of College Station, Brazos Valley Affordable Housing Corporation, and others, in the promotion of Fair Housing.
- The City will disseminate Fair Housing Brochures and/or literature to local Realtors through the local Realtors Association.
- Prepare a Fair Housing Brochure to be made available at various events and locations.
- Hold presentations with public and private employers, in conjunction with HR orientations.
- Host a Fair Housing Seminar with the City of College Station and other agencies, as appropriate.
- Development standards will be as accommodating as possible to facilitate development of both market and affordable residential units.
- The City will avoid duplication between local jurisdictions regarding development-related processes and procedures.
- The City's building fees will be kept as reasonable as possible to ensure that affordable housing is not hindered.
- The City will apply flexibility in zoning and building requirements when appropriate to promote fair and affordable housing.
- Permit fees for City-sponsored affordable housing development are waived for participating non-profit developers, and outstanding city liens are also.
- Local development expenses are kept to a minimum in terms of housing construction and renovation costs.
- Technical assistance and home buyer counseling is being provided by the cities and local agencies to promote programs assisting lower income home buyers.
- Affordable rental units, to include HTC (Housing Tax Credit) projects and privately owned properties, have been supported by the City over the last several years to promote the development of affordable rental units
- The City maintains partnerships with other inter-local agencies and interested citizens to encourage the development of accessible, special-needs housing, and provides funding and technical assistance to its CHDO's for development of affordable housing.
- The City will invite the Houston FHEO to visit Bryan and College Station to provide training.
- City staff will track time spent on FHEO activities to allow quantification of time and funds expended.

These proposed actions were used to promote fair, affordable housing in Bryan. The only exception was a visit by Houston FHEO staff to provide training. While this did not transpire, City staff did, instead, attend training at the Houston CPD Office, where FHEO issues were covered and training provided.

Additionally, during this reporting period and in preparation of its 2014 CAP, the City developed a chart detailing media related efforts to enhance its promotion of fair housing locally during the 2013-14 Program Year. That chart (following) lists specific events held and the venues and media outlets employed. Note that the last entry was added after the 2014 CAP was prepared and submitted to HUD.

The Analysis of Impediments

An update to the City's Analysis of Impediments (AI) was completed to coincide with development of the City's 2010-2014 Consolidated Plan and was utilized during this reporting period. In examining potential barriers to affordable housing, the city reviewed its policies for potential barriers to the development, maintenance or improvement of affordable housing. The purpose of regulations is to protect the public health, safety and welfare. While promoting affordable housing, a balance must be established between societal and environmental goals and housing affordability. *In analyzing the effects of local public policy as potential barriers to affordable housing in Bryan, no significant barriers are found to exist.*

Additionally, the AI studied the local private housing market for evidence of any impediments to Fair Housing Choice. The AI utilized data from a variety of sources, to include but not limited to: the U.S. Census Bureau, the Real Estate Center at Texas A&M University, the Bryan/College Station Association of Realtors Multiple Listing Service, the City of Bryan Community Development, Geographic

Information Systems, and Planning and Development Services Departments, the Brazos County Appraisal District, FFIEC, the Bryan Economic Development Corporation, and the 2010 Community Needs Assessment Survey. Following are observations and actions in conjunction with the City's AI.

Local Policies

While no local policies were identified as barriers, the federal SAFE Act enacted in 2008 as a component of the Housing and Economic Recovery Act was identified as a potential barrier to local Fair Housing choice. It is apparent that, due to SAFE requirements, lender fees have risen and mortgage products have become more limited, impacting housing options and affordability. HUD's Final Rule published June 30, 2011 interpreted the federal SAFE Act to exempt units of state and local government from the requirements of the act. The State of Texas Department of Savings and Mortgage Lending (SML) is responsible for the implementation of the Texas SAFE Act. SML Published guidance on November 18, 2011 which also exempts governmental entities under the Texas SAFE Act.

In addition to the SAFE Act under HERA, sections 1411 and 1412 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) was implemented January, 2014 when the Consumer Financial Protection Bureau (CFPB) amended Regulation Z, which implemented the Truth in Lending Act (TILA). Regulation Z previously prohibited lenders from making a higher-priced mortgage loan without regard to the consumer's ability to repay the loan. The new rule requires that creditors make a reasonable, good faith determination of a consumer's ability to repay a mortgage loan and establishes a "qualified mortgage"(QM) safe harbor for lenders. An earlier study (Compliance Ease, October 2013), showed that 20% of current mortgage loans would not meet the QM standard. Loans outside the QM standard will no longer be eligible for purchase, insurance or guarantee by government-sponsored enterprises (GSEs, such as Fannie Mae or Freddie Mac) or government agencies. While these new requirements are intended to protect consumers, it is likely that lenders will further limit loan products resulting in fewer consumers being able to qualify for mortgages.

Market Observations

The following observations summarize the findings of the city's housing market analysis as it relates to: general market and inventory, student impact on housing market, rental housing market, single housing sales market, mortgage lending issues, areas of low and moderate income concentration, areas of racial/ethnic minority concentration, land use policies, and housing needs by demographic designation.

- According to Home Mortgage Disclosure Act (HMDA) data, Black and Hispanic applicants' incidence of loan denial is higher than their percentage of their population as a whole and most often due to poor credit ratings. This is true of all categories: conventional loans; FHA and VA financing; refinance loans and home improvement loans. The second reason reported most often for Hispanics, Black and White loan denials is excessive debt-to-income ratios. Historically, both Black and Hispanic applicants experience higher refinance loan denial percentages as compared to their respective percentages of the population as a whole. Poor credit history rating remains the primary reason for loan denials for these minority populations.
- Most dilapidated housing is located in low to moderate income areas based upon housing condition survey data collected for the 2010 – 2014 5-Year Plan.
- A review of advertising indicates local housing providers, lenders, and insurers should be diligent to include fair housing logos and diverse human models, as well as bilingual advertising.
- Local land use policies discourage large, high-density multifamily developments in areas identified for economic development or neighborhood enhancement. The City promotes scattered site, low-density affordable housing which limits the concentration of poverty in the city.
- Limits on the number of occupants in a single family dwelling likely meet the test of reasonableness under the Fair Housing Act, although some Residential Conservation Districts allow only 2 unrelated adult residents and may be found not to meet the test of reasonableness under the Act.

- There have been no actions initiated by DOJ or HUD against the City during the review period and no administrative complaints concerning the City of Bryan have been received. Nineteen rental discrimination complaints were made against private companies or individuals during the five years preceding the adoption of the current Consolidated Plan, most involving rental terms, conditions, or facilities. The primary basis for complaints was disability (28%), followed by family status and race (20% each). All cases were found to be without cause, withdrawn, or dismissed.
- An increase in unit density indicates increased housing demand locally, suggesting local housing development may lag behind demand and demand may result in increased shelter cost burden on low and moderate income citizens.
- Single-family median and average homes sales continue to set new highs, impacting lower-income, first-time homebuyers. Inventories of homes listed for sale have also been lower than normal recently, further challenging the lower-income homebuyers. Additionally, the recently implemented Dodd–Frank Wall Street Reform and Consumer Protection Act has the unintended effect of making underwriting of mortgage loans more demanding, particularly for the lower-income, first-time homebuyer.
- Occupancy for Bryan-College Station apartments have remained in the high 90% range which was comparable to the Texas State Average. Average rental costs were also comparable to the Texas State Average, demonstrating a typical Texas multifamily market in terms of affordability and occupancy. Rates, however, continue to set new highs, which continue to impact affordability for lower income citizens.
- Latino/Hispanic populations are the largest minority group and the largest ethnic group with elevated housing problems.
- Combined, Texas A&M University and Blinn College represent a total college student demand on the local housing market of approximately 60,000 students, which tends to increase rental rates to the disadvantage of non-student renters.

Evaluation of Activities Utilizing CDBG Funds

Analysis of public hearing comments and survey data regarding fair housing activities finds continued emphasis on continuing fair housing presentations to the public and building public awareness of fair housing continues to be effective in increasing awareness. From the 2010-2014 Consolidated Plan Community Needs Assessment, 7% of surveyed respondents expressed a problem with discrimination. Analysis indicates that significantly more than expected respondents experienced problems in buying or renting property due to inability to afford rent/payments, inability to get a loan, a lack of down-payment resources, and credit difficulties.

Evaluation of Fair Housing Enforcement and Monitoring

The supply of affordable housing available in low to moderate income areas and citywide has been increased through the activities of the Department, other partnering city departments and private agencies. The Building Inspections Division has used the Fair Housing Act of 1968 and the 1994 Americans with Disabilities Act as a standard of compliance for building plans review and code compliance.

In this reporting period, all City of Bryan-assisted developments were found to be in compliance based upon Community Development Services Department monitoring review records. No complaints have been filed with the City Attorney's office under the City of Bryan Fair Housing Ordinance as of September 30, 2014.

A community needs Assessment was performed during the 2010-2014 Consolidated Plan development process, which allowed the City, and its public and private partners, to better identify, assess and address housing needs and potential obstacles to Fair Housing choice locally. For the five years prior to the currently Consolidated Plan period, there were no fair housing complaints made to neither the City nor the State. Nineteen complaints were made to HUD regarding local property owners/managers - *All complaints were found to be without cause and have been successfully resolved.*

O. Institutional Structure

The City of Bryan coordinates and administers the affordable housing, supportive housing, homeless, and non-housing community development strategies through its Community Development Services Department. The department acts as a liaison with community groups, public institutions, non-profit organizations, and private industry to share information, identify resources and opportunities, and coordinate activities when possible.

Several formal organizations and committees exist to aid in this coordination: the Children's Partnership Board, the United Way of the Brazos Valley, the Brazos Valley Council of Governments, Texas A&M University, Blinn Junior College, the Economic Development Council, the Small Business Administrative Office, the Bryan College Station Community Health Center Coalition, the Brazos Valley Health Partnership, the Brazos Valley Affordable Housing Corporation, the Brazos Valley Coalition for the Homeless, the Chamber of Commerce, Habitat for Humanity, the Information and Referral Advisory Board, the Texas Agriculture Extension Office, the United Way Board, the Bryan Housing Authority, the Community Development Advisory Committee, the Community Development Loan Committee, and the Joint Relief Funding Review Committee.

Staff will continue to participate in these organizations as well as cooperate with and provide individual technical assistance to others.

P. Evaluate and Reduce Lead Hazards

Bryan has emphasized lead-based paint (LBP) counseling and awareness in all its programs. All Down Payment and Closing Cost assistance for pre-1978 properties in the first time homebuyer program requires LBP counseling as well as testing and remediation.

The City also maintains a continued focus on the hazards of lead-based paint and the need for lead-based paint testing of potential rehabilitation projects. Additionally, the City has continued to work with public service agencies caring for or providing services to children to reduce lead-based hazards in the community. Based on the latest available data (2011 information from the Texas Department of State Health Services), 8 out of 1,640 Bryan children under the age of 15 years tested for elevated blood lead levels were found to have elevated levels, as shown in the following chart.

Zip Codes	Children Tested	Children Elevated
77801	323	<5
77802	220	<5
77803	794	5
77805	16	<5
77806	36	0
77807	160	0
77808	91	0
77842	0	0
Total	1,640	8

The following strategies related to the City’s Community Development programs are ongoing:

- Provide public information and education regarding lead-based paint.
- Integrate lead hazard evaluation and reduction activities into all housing activities.
- Provide training and certification opportunities for Community Development staff to manage lead-based paint impacted projects

Q. Reduce Number of Poverty Level Families

As part of the Consolidated Planning process the City adopted an antipoverty strategy. That strategy has the following components:

- Expand the inventory of safe, decent, affordable shelters available to low-income residents.
- Fund public service activities that enhance quality of life and encourage self-sufficiency for low-income residents.
- Create employment opportunities that allow low-income residents to become economically self-sufficient members of the community. Provide assistance to businesses creating jobs targeting low-income persons. There is emphasis placed on living wage jobs.
- Promote and fund activities allowing children to develop their maximum potential and break the poverty cycle.

This past year, Bryan disbursed CDBG funds for the following activities, in addition to the housing activities described above, to address these goals:

R. Enhance Coordination between Public & Private Housing & Social Service Agencies

The Community Development Services Department of the City of Bryan is the lead agency for the 5-Year Consolidated Plan and any subsequent Annual Plans. The staff worked closely with all recipients of funds through the 2013-14 Consolidated Action Plan to achieve the stated results.

Housing Agencies: City staff coordinated efforts with the Bryan Housing Authority, Brazos Valley Development Council, City of College Station, Texas Department of Housing and Community Affairs, HUD, the Brazos Valley Community Action Agency, Brazos Valley Council of Governments Section 8 Housing Voucher Program, Mental Health and Mental Retardation, Habitat for Humanity, the Brazos Valley Affordable Housing Corporation and other public and private entities to enhance program delivery.

Social Service Coordination: Bryan and College Station, Texas, both entitlement communities, jointly operated the Joint Relief Funding Review Committee whose task it was to review all CDBG public service funding applications for the two cities and provide the respective city councils with recommendations for use of the funds. This activity eliminates duplicated requests and provides a quality review of needs and resources for the larger Bryan-College Station community.

Two CDBG application workshops were held for non-profit agency staff and several workshops for CDBG recipient's Board of Directors members during Board meetings throughout the year. Staff worked with Unity Partners, a coalition of area non-profits to reduce duplication of services and provide better coordination of services in the area. Staff served on several committees that have been established to provide information and referral access, education, training and fundraising for area non-profits. Staff

also assisted Project Unity and other organizations in grant proposals. Staff, as part of the Information and Referral (I&R) Committee, provided technical support to United Way, including several group meetings, and other pertinent agencies that provide I&R; including many city departments.

Public Housing: The City of Bryan appoints the board for the Bryan Housing Authority (BHA). City of Bryan representatives meet regularly with BHA staff to discuss operating procedures, concerns of residents, and to outline ways the City can provide additional technical assistance.

S. Foster Public Housing Improvements and Resident Initiatives

The City reviewed the Bryan Housing Authority's 5-Year and Annual Plans for consistency with the City's 5-Year Consolidated Plan. BHA's 2013 Capital Fund Program was awarded and the following is the distribution of funds: BHA's 2013 Capital Fund grant program was awarded and following is the distribution of funds. The 2013 CFP was in the amount of \$ 368,510, with \$14,500 for management improvements, \$48,847 for operations, \$73,302 in administration, \$10,802 for fees and cost, \$90,000 for site improvement and \$131,059 for dwelling structures.

During PY2013-14, the Housing Authority was finalizing its ROSS-Service Coordinator Grant for 2011-2014. The three year grant was for \$240,000. BHA submitted a renewal application in February 2013 to continue the ROSS grant and was awarded another in the amount of \$245,000 for 2015-2017

BHA continued to assist residents on: parenting skills, dropout prevention with the youth, domestic violence, substance abuse, health fairs and healthcare assistance, pregnancy outreach, budgeting, low income homeownership program, GED classes and higher education, youth development/youth leadership, computer classes, assistance with Social Security, coupon shopping and food pantries. BHA is also initiating character building sessions during the summer for neighborhood youth, and fitness programs for adults as well as a Safe Sitter Program for our youth. .

BHA finalized its playground project which updated playscapes and surfacing of playgrounds located on Dansby and Jordan Loop. During this reporting period, BHA had an occupancy rate of approximately 97% during this reporting period.

T. Program Monitoring Standards and Procedures

The City of Bryan's Community Development Services Department continuously monitors programs and activities to ensure compliance with city/state/federal regulations and policies. With regards to compliance with grant regulations on income eligibility for housing and non-housing activities, the City uses the following two HUD tests for Low Moderate Clientele (LMC), as follows:

- Exclusively benefit a clientele who are generally *presumed by HUD to be principally L/M income persons*. Abused children and elderly persons are two of the groups that are currently presumed by HUD to be made up principally of L/M income persons, or:
- Require *information on family size and income* so that it is evident that *at least 51%* of the clientele are persons whose family income does not exceed the L/M income limit. (This includes the case where the activity is restricted *exclusively to L/M income persons*).

Monitoring focuses on the following areas:

Financial: Community Development staff and the City's accounting department work closely to ensure that funds drawn down are used for authorized activities on approved projects. Activity

agreements, expense documentation and approvals must be in-place for funds to be expended. The City ensures a proper system of checks and balances; those requesting payments of funds are not authorized to approve them. The Community Development Services Department is also subject to an annual single audit, conducted by an independent accounting firm. Staff continues to update monitoring forms to ensure the financial compliance and capacity of the funded contracts.

Environmental: All projects and individual activities are subjected to a review of environmental impacts prior to funding approval. Staff does reviews with the assistance of other City Departments and outside agencies as necessary. Remediation of impacts is implemented where required. Projects or activities unable to meet environmental requirements are abandoned or alternative locations/solutions are sought.

Programmatic: Results and/or impacts are evaluated and measured for all projects. Staff is charged with monitoring progress toward project goals on a regular basis. Program specific monitoring requirements are incorporated into contracts per the Department's Policies and Procedures Manual and HUD regulations.

The City has implemented requirements of the FY 2012 HOME Appropriation Law which provided new regulations for HOME projects to improve project and developer selection and to ensure that adequate market demand exists for HOME projects. The City has also implemented the requirements of the HOME FY 2013 Final Rule.

In the previous program year, the City revised policies and procedures to address these requirements, including revised completion project dates, extension policies, tracking system process to ensure compliance of the four year completion date, timely draw process, technical assistance policy for property conversion (owner occupied to rental), CHDO capacity to provide evidence of development experience, underwriter review, developer capacity assessment, and neighborhood market conditions policies/procedures.

Sub-recipient Monitoring: Monitoring allows assessment of a program's operations. A secondary goal is to obtain data for use in determining program achievement. All sub-recipients are monitored on site at least annually with new sub-recipients sometimes being monitored more often. Quarterly desk monitoring is done in accordance with the contractual requirements. The on-site visit includes review of income and expense documentation, beneficiary information, programming, purchasing and any special requirements as described in the contract. Agencies are monitored quarterly and provided feedback of this monitoring process to ensure compliance with federal/state/city requirements.

Sub-recipients are trained annually on reporting requirements and documentation needs. This past year, two workshops were held for the area's non-profits to inform them of the grant application procedure and to provide information on monitoring procedures. Plans were implemented to provide Board Workshops as well as Board training for funded agencies.

Public service agencies are funded through a joint process (Joint Relief Funding Review Committee - JRFRC) each year with the City of College Station. The cities issue a joint RFP (Request for Proposal) and the JRFRC reviews submitted proposals weekly during the review process. Site visits are made, presentations done by the agencies and the Committee makes recommendations for each city's allocated PSA funding. Recommendations are part of the annual CAP approval by each city council and submitted to the Houston HUD Office. Finally, the reimbursement of funds is tied directly to reporting of accomplishments.

Section 3 Compliance: Section 3 is a provision of the Housing and Urban Development (HUD) Act of 1968 that helps foster local economic development, neighborhood economic improvement, and

individual self-sufficiency. For Section 3 covered projects, the City ensures that recipients/contractors, to the greatest extent feasible, provide job training, employment, and contracting opportunities for low- or very-low income residents in connection with projects and activities in their neighborhoods. Covered recipients of HUD financial assistance will award the economic opportunities. Covered contractors and subcontractors are required to provide, to the greatest extent feasible, economic opportunities consistent with existing Federal, State, and local laws and regulations. The City has coordinated Section 3 efforts regionally with the City of College Station, Brazos Valley Council of Governments, Bryan Housing Authority, and Workforce Solutions to recruit and encourage Section 3 businesses to participate in City projects. Section 3 Plans are included in all applicable project bid packages.

Labor Standards: Individual project managers monitor labor standards. Labor requirements are included in all bid documents and covered again during the required pre-construction conference. Contractor payments are not processed until all forms required are submitted and correct.

Anti-displacement and Relocation Compliance: No displacements occurred during this reporting period by use of CDBG or HOME funds. The City complies with acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (URA), and the regulations at 49 CFR 24; and it has in effect and is following a residential anti-displacement and relocation assistance plan required under section 570.104(d) of the Housing and Community Development Act of 1974, as amended. All CDBG and HOME programs are offered on a voluntary basis only to eligible clients. The City does not anticipate any displacement of citizens resulting from programs covered by the Consolidated Plan and works to prevent such displacement, by:

- 1) Avoiding displacement of existing tenants or homeowners as a result of the use of CDBG or HOME funds for rehabilitation, reconstruction, acquisition, or any other Community Development activities to the greatest degree possible, and will not sponsor projects that will cause the displacement of a very low income household by a household that is not of very low income. The City does not currently, and will not participate in any rental rehabilitation activities, unless specified in a future 5-Year Consolidated Plan or Consolidated Plan amendment.
- 2) Avoiding the use of eminent domain and participating in only voluntary acquisitions of either vacant, or owner-occupied properties. Vacant properties must have been vacant for at least ninety (90) days, as verified by utility records or other acceptable means.
- 3) Analyzing proposed projects on a case-by-case basis to identify any potential households, businesses, farms, or non-profit organizations to determine if any displacement might occur in connection with an individual project. This will be done by:
 - a. Review of property tax records to identify owners and owner-occupants
 - b. Review of title records to identify occupant and potential non-occupant owners
 - c. Review of utility records to identify tenant occupants.
 - d. Visual verification and site photographs to identify any otherwise unknown occupants.
- 4) Seeking alternatives which could achieve the public purpose of the project without displacement.
- 5) Advising owners and occupants of their rights under the URA.

Should a project be found to involve the potential for displacement, the City will:

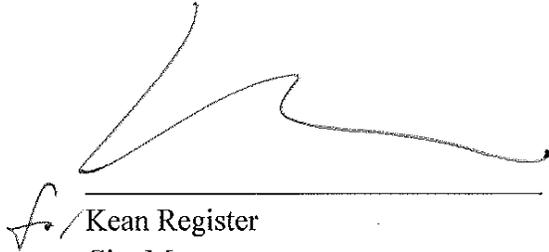

- 1) Seek assistance from and work closely with the U.S. Department of Housing and Urban Development Regional Relocation Specialist.
- 2) Provide timely issuance of information and required notices to any identified households, businesses, farms, or non-profit organizations through certified mail, regular mail, and hand delivery to the property, if occupied.
- 3) Identify the needs and preferences of any household which could potentially be displaced.

B. Match Requirements

Due to a HUD issued 100% waiver on HOME match requirements, the City of Bryan is not required to provide a local match for HOME expenditures associated with the 2013 program year. The City was also granted a 100% match waiver for The City provided match in previous years through a variety of sources including: waivers of building permit fees on CDBG and HOME funded projects, general fund match for program delivery, sweat equity for CHDO or rehabilitation housing projects, direct homebuyer counseling provided by City funded staff and down payment and closing cost assistance to HOME eligible participants using City funds.

C. Affirmative Marketing

No Community Development Block Grant Funds or HOME funds were used for rehabilitation of multi-family rental projects this past year. The Community Development Services Department provides technical support for private developers who provide rental rehabilitation for either multi-housing or single family units. Owners of rental properties are provided with the names and phone numbers of

contacts at the Brazos Valley Council of Governments, the local administrator of Section 8 Housing vouchers and certificates, to look for qualifying tenants. Also, when potential tenants contact the Community Development Office, they are provided with names and phone numbers of rental rehabilitation assistance recipients.

During the 2013 program year, considerable staff effort continued with marketing of the homebuyer's program. Staff works with local mortgage lenders, real estate agents, title companies and other housing agencies to provide program information and requirements. Staff also participated in housing fairs and spoke to a number of employee groups about CDBG and HOME funded housing programs. Staff supported efforts by the Brazos Valley Council of Governments (BVCOG), Brazos Valley Affordable Housing Corporation (BVAHC) programs to provide down payment assistance. Staff provides extensive workshops in collaboration with BVAHC for the education and counseling of first time homebuyers. Detail on homebuyer's demographics in HOME Activities Summaries.

Community Development Staff continues to provide information to other city departments concerning housing and related service programs available community wide too low to moderate-income citizens. Results have been increased referrals through this marketing.

D. Minority Outreach

Community Development staff, through their minority outreach marketing plan, reached out to and promote participation in Bryan's programs by minority, female, and historically underutilized businesses:

- All projects over \$15,000 are advertised through the Bryan-College Station Eagle, a daily newspaper, and project plans are made available to all contractors through the Contractor's Bid Room and City of Bryan's Purchasing Department website.
- All contractors listed in the yellow pages of the local phone directory under general and remodeling contractors, have been contacted by staff and invited to pick up bid packages and contractor qualification documents.
- Per City policy, on all purchases exceeding \$3,000, a minority contractor is contacted and invited to bid the item or service. The City's purchasing Department maintains a list of HUBs for this purpose.
- Staff participates in the local homebuilders and purchasing associations, providing information about contracting opportunities with the City.
