**BUILDING AND STANDARDS COMMISSION  
STAFF RECOMMENDATION**

**October 27, 2014**

**Case #: 2058**

**Building Address: 1411 Kermitt Street**

**Record Owner(s): Carmen Maria Ramirez**

**The City's Chief Building Official has requested this Commission hearing to discuss the building on this property, and all legal notices of the hearing were provided to record owners, lienholders, and mortgagees. They were also notified that if they wanted to repair the building they needed to meet with City staff and come to the hearing with a detailed plan for repairs, including cost estimates. Based on the surveys, reports, photographs, and other evidence provided to the Commission, the City recommends that the Commission find the building unsafe based on the standards set forth in Bryan Code of Ordinances Section 14-224 subsection(s):**

- 1)  The building, structure, or any part thereof is likely to partially or fully collapse.
- 2)  The structure or any part thereof was constructed or maintained in violation of any provision of the City's Building Code, or any other applicable ordinance or law of the city, county, state or federal government.
- 3)  One or more walls or other vertical structural members list, lean, or buckle to such an extent that a plumb line passing through the center of gravity falls outside of the middle third or its base.
- 4)  The foundation or the vertical or horizontal supporting members are twenty five percent (25%) or more damaged or deteriorated.
- 5)  The non supporting coverings of walls, ceilings, roofs, or floors are fifty percent (50%) or more damaged or deteriorated.
- 6)  The structure has improperly distributed loads upon the structural members, or they have insufficient strength to be reasonably safe for the purpose used.
- 7)  The structure or any part thereof has been damaged by fire, water, earthquake, wind, vandalism, or other cause to such an extent that it has become dangerous to the public health, safety and welfare.
- 8)  The structure or any part thereof has inadequate means of egress as required by the City's Building Code.
- 9)  The structure does not have adequate light ventilation, or sanitation facilities as required by the City's Building Codes and Plumbing Code.

**The City further recommends that the Commission find that:**

- the building may not be feasibly repaired in compliance with City ordinances.**
- the manufactured home is too damaged to be safely moved from the property to another location.**

**The City recommends that the Commission issue an order to the owner, lienholder, or mortgagee to:**

- demolish the building and remove the debris within 30 days.**

**The City recommends that the Commission orders that the City may:**

- disconnect water and electric utilities to the building;**
- secure the structure, demolish the building and remove the debris in accordance with Chapter 14 of the City of Bryan's Code of Ordinances if the owner, lienholder, or mortgagee fails to comply with the Commission's order.**
