

**Project Name:** Fire Station 6 - new

**CIP Project:**  
**Council District:** 2  
**Type / Source:** Facilities  
**CIP Ranking:** 52  
**Projected Cost Year:** 2014  
**Projected Cost:** \$7,593,000

**Location:** Hwy 21 east at Coulter Field

#### Description

This project includes the construction of a new fire station to be located near SH 21 east.

#### Justification

The construction of fire station 6 was anticipated in the 2003 study to be constructed in 2015 with assumptions that the city's growth rate projections were correct. Fire stations are located to insure that emergency services can arrive on the scene within 3 – 5 minutes of any emergency call within the City of Bryan. This will meet the standards for emergency response set by the National Fire Protection Association (NFPA) and the Insurance Services Organization (ISO). It is anticipated that the station will need to be constructed by the year 2015 assuming the City grows at the rate anticipated by the Master Plan conducted in 2003.
