

Project Name: Fire Station 4

Location: North Texas Avenue is existing location

CIP Project:
Council District:
Type / Source: Facilities
CIP Ranking: 55
Projected Cost Year: 2014
Projected Cost: \$6,328,000

Description

This project includes additions to Fire Station No. 4. There is existing property adjacent to the station that can be purchased to accommodate the expansion.

Justification

Fire station 4 does not have adequate space for personnel and apparatus currently assigned to the station. It was constructed for 1 or 2 apparatus. This was for 1 fire engine and a reserve unit or ambulance. It was anticipated that there would be 3 or 4 firefighters assigned to each station. With the addition of Emergency Medical Services in the late 1970's we added more people and more apparatus. There are now 7-10 fire fighter/paramedics assigned to each station and we have 7 fire engines , 7 ambulances and 10 -12 other emergency response and non emergency response vehicles and other equipment that we did not have in the past
