Description

Construct 5 ft wide sidewalks both sides of Sandy Point Rd. for a distance of 1400 LF from SH21. This would require the installation of curb, gutter and drainage to allow safe installation of the sidewalks.

Justification

Significant foot traffic from apartments, residences and businesses along Sandy Point Road along with the drainage ditch on each side of the road force pedestrians to walk on edge of the roadway creating conflicts with vehicular traffic. This project would provide for safe pedestrian walkways. This project has been incorporated in potential MPO project ST_16_004.
