

Project Name: 29th Street Phase 3
Location: 29th Street (S. Coulter to Garden)
Status: Unfunded

CIP Project: N/A
Council District: 4
Type / Source: Streets / MP 2008
CIP Ranking: 48
Projected Cost Year: 2022
Projected Cost: \$7,118,000
Original Cost Year: 2008

Description

This project includes reconstruction of 29th Street from S. Coulter to Garden Lane with a 3 lane minor collector roadway of 37 feet wide with bike lanes and sidewalks on both sides. The project would include lessening of an existing curve that has too tight of a radius and would include the widening of the S. Coulter intersection to accommodate multiple turn lanes. The traffic signal at S. Coulter would need to be replaced with this project to accommodate the new intersection geometry.

Justification

E. 29th Street is listed on the Thoroughfare plan as a minor arterial and is a vital thoroughfare for the City of Bryan connecting Downtown Bryan to the City of College Station's portion of University Drive. Enhancing mobility along this corridor will help to continue business growth along the corridor.
