

Capital Improvement Program

Project: ST_14_009

Project Name: S Texas Ave. Medians

CIP Project: N/A

Location: E Villa Maria Rd. to University Dr.

Council District: 4,5

Type / Source: Streets / Staff

CIP Ranking: 16

Projected Cost Year: 2022

Projected Cost: \$1,831,000

Original Cost Year: 2014

Status: Unfunded

Description

Provide controlled access medians along the Texas Ave. corridor between Villa Maria /Rd. and University Dr. with raised planter beds that are consistent with the theme between University Dr. and George Bush Dr. This project has been incorporated in MPO Project ST_17_02.

Justification

Being the major transportation link between Bryan and College Station, this section of Texas Ave. sees high traffic volumes that are continually increasing with the growth and expansion along this corridor and the higher numbers of Blinn students. This project will provide safety improvements at primary access points and continue the decorative theme by installing the raised planter beds with associated landscaping. No additional right of way is required and the center two way turn lane is wide enough to accommodate the improvements. Raised delineators already exist in some areas such as near the Tejas center highlighting the need along this busy section of roadway.
