

Capital Improvement Program

Project: SW_09_041

Project Name: South College Avenue Stormwater Detention Facility
Location: TBD
Status: Unfunded

CIP Project: N/A
Council District: 5
Type / Source: Storm Water / Staff
CIP Ranking: 35
Projected Cost Year: 2022
Projected Cost: \$417,000
Original Cost Year: 2009

Description

This project would purchase land and construct a regional stormwater pond upstream along South College Avenue to mitigate the existing drainage problems and allow future widening of the roadway without causing more flooding problems. The site for this pond has not been located to date but would need to be a significant large tract of land to physically be able to construct a pond or ponds.

Justification

Acquisition of land ahead of the actual need for construction of the detention facility will save the City time and money when the project is implemented.
