

Project Name: Two - Traffic Signals at N Coulter Dr at E WJB PW (Westbound & Eastbound)

Location: Westbound & Eastbound E WJB Pw at North Coulter Dr with proposed Beacon on curved approach to North intersection at N Coulter

Status: Unfunded

CIP Project:
Council District: 3,4
Type / Source: Traffic Signals
CIP Ranking: 0
Projected Cost Year: 2022
Projected Cost: \$0
Original Cost Year: 2015

Description

Install two traffic signals at the north & south intersections of N Coulter Dr at E WJB Pw that will be interconnected to operate together. It would also include a Warning Beacon on the northside west bound separation of E WJB Pw to warn of approaching signal that could maybe even one that reflects when the upcoming signal is red. Both intersections would include new Crosswalks with pedestrian signals.

Justification

The north intersection of westbound E WJB Pw at N Coulter Dr at the east end of Sue Haswell Memorial Park is a blind corner and needs a traffic signal and is very dangerous to cross traffic that at the present have only stop signs on N Coulter (both sides) which can cause traffic congestion at rush hour times.. There are also no pedestrian signals nor crosswalks from adjacent areas to get to the Park which makes crossing E WJB Pw that has a speed limit of 35 MPH very dangerous and near impossible.
