SECOND AMENDMENT TO AGREEMENT FOR DELIVERY AND USE OF
RECLAIMED WATER

This is the Second Amendment ("Second Amendment") to the Agreement For The Delivery and Use of Reclaimed Water (the "Agreement") made and entered into on September 27, 2002, between Traditions Club by Melrose, LLC, a Texas limited liability company ("User") and the City of Bryan, a Texas home rule City ("City"). The Agreement was first amended on January 17, 2003 ("First Amendment").

WHEREAS, Traditions Acquisition Partnership, L.P., a Texas limited partnership ("TAP") acquired the interest of User in the Agreement and City and TAP desire to amend the Agreement as set forth herein;

NOW, THEREFORE, in consideration of the foregoing and mutual covenants contained herein and in the Agreement and in the First Amendment, City and TAP hereby agree as follows:

1. Beginning on the 1st day of May, 2028, the term of the Agreement will be extended for a period of five (5) additional years and will terminate, if already terminated by other provisions of the Agreement, on the 30th day of April, 2033. The period between the 1st day of May, 2028, and the 30th day of April, 2033, shall be referred to as the "Extension Term".

2. The following terms and conditions shall apply during the Extension Term:

   a. During each calendar month of the Extension Term City shall, at its sole expense, make available to TAP at least 500,000 gallons of water (effluent only) per day or provide a suitable alternative source of water of comparable quality. The City shall, in its sole and absolute discretion, determine the source of the water to be delivered.

   b. If TAP uses more than 500,000 per day, the City will charge and TAP will pay for such consumption at the City's water rate on that day. The calculation to determine excess consumption shall be based upon daily consumption rather than annual consumption so that each day TAP uses more than 500,000 gallons it will pay for the excess. Billing for and payment of charges for the excess shall be in accordance with the then current policies of City consistently applied to water users.

3. The City shall, at its expense, install and maintain a meter at the point of production to measure the water volume delivered.

4. City acknowledges that TAP has concerns that the salt content of the irrigation water being provided pursuant to the Agreement exceeds optimum levels for the long term health of the golf course vegetation. The parties agree to work together, in good faith, to develop a reasonable plan to address the sodium issue.

5. Except as set forth in this Second Amendment, the terms and provisions of the Agreement and the First Amendment shall remain in full force and effect. City
and TAP acknowledge, ratify and reaffirm the Agreement, as amended by this Amendment and the First Amendment.

IN WITNESS WHEREOF, the parties have executed this Amendment to be effective for all purposes as of the 14 day of October, 2009.

FIRST AMENDMENT TO AN AGREEMENT FOR THE DELIVERY AND USE OF RECLAIMED WATER

This is the First Amendment to the Agreement For The Delivery And Use Of Reclaimed Water made and entered into on September 27, 2002 between TRADITIONS CLUB BY MELROSE, LLC, a Texas liability company (USER) and the CITY OF BRYAN, a Texas home rule city (CITY).

WHEREAS, CITY submitted the Agreement For The Delivery And Use Of Reclaimed Water for technical review by the Texas Commission on Environmental Quality (TCEQ) [formerly known as the Texas Natural Resources Conservation Commission or TNRCC] in order to secure a City of Bryan Reclaimed Water Authorization for the reuse of Type II wastewater from the City of Bryan’s Wastewater Treatment Plant (TNRCC Permit No. 10426-003); and

WHEREAS, the TCEQ staff has prepared a draft Authorization No. R 10426-003 For Reclaimed Water but has conditioned the issuance of the Authorization on an amendment to the Agreement For The Delivery And Use Of Reclaimed Water as set forth below in this First Amendment; and

WHEREAS, the CITY and USER agree that it is in their mutual interest and benefit to procure the issuance of the Reclaimed Water Authorization from the TCEQ and to clearly delineate the responsibilities of CITY and USER under the Reclaimed Water Authorization;

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants contained herein, the CITY and USER do hereby agree as follows:

1. CITY and USER hereby agree that the Agreement For The Delivery and Use of Reclaimed Water is hereby amended by adding the following language to Subsection 16(b), Operations and Maintenance Practices, as a new subpart 4:

   "The User shall comply with the regulations specified by 30 Texas Administrative Code, §210.25, Special Design Criteria For Reclaimed Water Systems, when performing any modifications to the existing reclaimed water system, including modifications to the irrigation system, or when constructing any new infrastructure to the existing reclaimed water system, including any additions to the irrigation system."

2. CITY and USER hereby agree that, except as set forth in this First Amendment, there are no other changes to the Agreement For The Delivery and Use of Reclaimed Water and that said agreement, as amended, remains in full force and effect.
IN WITNESS WHEREOF, the parties hereto have set their hands this 17th day of January, 2002.

AGREEMENT FOR THE DELIVERY
AND USE OF RECLAIMED WATER

THIS AGREEMENT is made and entered into this 24th day of September, 2002, between TRADITIONS CLUB BY MELROSE, LLC, a Texas limited liability company (hereinafter referred to as the "USER") and the CITY OF BRYAN, a Texas home rule city (hereinafter referred to as the "CITY").

WITNESSETH:

WHEREAS, the CITY owns, maintains and operates wastewater treatment facilities (WWTF) serving the CITY of Bryan and intends to increase the capability of these facilities to produce treated effluent of a quality adequate for nonpotable uses; and

WHEREAS, such treated effluent, hereafter referred to as "reclaimed water", is a valuable water resource which can be safely used for irrigation and other nonpotable purposes; and

WHEREAS, the CITY desires to reuse this reclaimed water for irrigation and other nonpotable purposes as a means of recycling water resources and decreasing surface water discharges; and

WHEREAS, USER is negotiating to acquire certain land within areas where reclaimed water is available and which is more fully described in that certain Development and Purchase and Sale Agreement dated November 2, 1999, as amended (the "Development Agreement"); and

WHEREAS, if USER does acquire the land, USER can benefit from the use of reclaimed water as a source of nonpotable water for nonpotable uses and will be the party responsible to perform the covenants of this Agreement; and

WHEREAS, USER desires to use reclaimed water from the CITY pursuant to the terms and conditions set forth herein.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants contained herein, the CITY and USER do hereby agree as follows:

1. EASEMENTS.

If reclaimed water transmission piping is to be installed on the USER's property, the following conditions shall apply:

(a) In areas designated by USER, in its discretion, USER will consent to the reservation of an easement for the delivery and use of the reclaimed water on the USER's property. Easements shall be in areas to the point of delivery in the
vicinity of an existing irrigation pond contained within property known as Tract Six, which is a portion of the Property defined below (the "Point of Delivery").

(b) The USER shall provide the CITY with a copy of the deed that transferred the subject property to the USER. The subject property is described as the property set forth on Exhibit "A" (the "Property"). The consent of all of USER's mortgagees, if any, shall be required prior to the effectiveness of this Agreement and the easement.

2. **TERM OF THE AGREEMENT.**

(a) The CITY shall deliver and the USER shall accept and use reclaimed water produced by the CITY from its wastewater treatment facilities in accordance with the terms of this Agreement, and this Agreement shall be effective for a term of twenty-five (25) years from the date of commencement of delivery of water. It is currently estimated that delivery of water will commence on or about March 15, 2003 (the "Commencement Date"). This Agreement may be renewed only by written mutual agreement of CITY and USER. This Agreement shall terminate if the USER ceases to use the water to be delivered hereunder for irrigation of the golf course for a period in excess of nine (9) months.

3. **USE OF RECLAIMED WATER.**

(a) The USER shall use the reclaimed water delivered by the CITY only for landscape and golf course irrigation of the Property, or other nonpotable purposes that are consistent with all local, state, and federal regulations.

(b) The USER shall identify all proposed uses of reclaimed water. The CITY shall review these proposed uses and reasonably approve or disapprove each use; provided, however, the use of the reclaimed water for irrigation of the golf course property and related landscaping as well as filling an irrigation pond shall be permitted uses, which do not require CITY approval. Pursuant to the Development Agreement, CITY shall construct and install at its sole expense all structures (the "Transmission Lines") necessary to deliver the reclaimed water to USER to the Point of Delivery. The USER shall install at its expense the irrigation pond and irrigation system necessary to irrigate the golf course property and the related landscaping (the "Irrigation System").

(c) The USER agrees to receive reclaimed water within thirty (30) days of the later of (i) receipt of written notice from the CITY to be given on or shortly after the completion date of the Transmission Lines or (ii) the Commencement Date. The USER shall be solely responsible for the construction, operation and maintenance of all portions of the USER's reclaimed water distribution system located within the boundaries of USER's property from the Point of Delivery forward.
4. **WATER QUALITY.**

Reclaimed water delivered under this Agreement shall be treated to levels acceptable to meet applicable federal, state, and local requirements for irrigation of lands with public access as such requirements may change from time to time. The CITY shall monitor water quality as required by the Texas Natural Resource Conservation Commission (TNRCC) reclaimed water use authorization. In the event of unplanned water quality deterioration the CITY will inform the USER as soon as practicable and delivery of reclaimed water shall be discontinued until quality is restored to acceptable levels. CITY shall, at the CITY's expense, provide USER with an alternate source of water in the amount set forth in Paragraph 6 (a) or (b), as applicable, to continue to irrigate the golf course and landscaping until the original source of reclaimed water is restored.

5. **CROSS CONNECTION.**

The CITY shall own, operate and maintain the reclaimed water distribution system upstream of the Point of Delivery. The USER shall construct, own, operate and maintain all works downstream of the Point of Delivery, including the meter, which is to be installed at CITY's expense.

The USER shall provide, if necessary, in a manner approved by the appropriate regulatory agencies or by the CITY, an appropriate back-flow protection device (the "Back-Flow Device") between the reclaimed water irrigation system and any other irrigation water source(s). The cost of Back-Flow Device and its installation shall be borne by the USER, and the complete operation of the Back-Flow Device shall be the responsibility of the USER. The USER agrees to identify to the CITY all well(s) or surface water bodies connected to the nonpotable water system.

6. **VOLUME OF WATER, DELIVERY SCHEDULE, AND RIGHT TO SET RATES, FEES AND CHARGES.**

   (a) During the first two years after the Commencement Date, the CITY shall make an average of 1,000,000 gallons per day of water (potable, nonpotable or reclaimed) or a suitable alternative source of water of comparable quality available to the USER at no cost to USER.

   (b) Beginning on the second anniversary of the Commencement Date and continuing throughout the term of this Agreement, CITY shall make an average of 500,000 gallons per day of water (potable, nonpotable or reclaimed) or a suitable alternative source of water of comparable quality available to the USER at no expense to USER.

   (c) Rainfall, seasonal changes and weather conditions affect the need for reclaimed water. Subject to the amount of rainfall and changing weather conditions, it is anticipated during the growing season and warm temperature months that the need for reclaimed water shall be greater than dormant months and cooler
temperature months. Thus, USER shall have the right to increase and decrease the quantity of reclaimed water used to match water needs or accommodate unforeseen circumstances. The CITY shall charge USER for such consumption in excess of the annual average amounts made available to USER as stated in Paragraphs (a) and (b) above. Such charge will be at the CITY's current water rate as that rate may change from time to time. The calculation to determine excess consumption shall be based upon annual consumption and not on a daily basis. Billing for said excess amount shall occur in January for the previous 12-month period. CITY shall notify USER in writing forty-five (45) days prior to said revised rates being enforced and said rates shall not be retroactive.

(d) The CITY shall install and maintain at its sole expense an appropriate meter at the Point of Delivery to measure the volume of water delivered.

7. **DELIVERY OF RECLAIMED WATER UNDER ADVERSE CONDITIONS.**

   (a) As set forth in Paragraph 6(c) above, USER has the right to decrease its water consumption as circumstances dictate. In such instances, USER shall provide CITY advanced written notice of the USER's intent to restrict the use of the reclaimed water for a period of greater than ten (10) days. If advance written notice to the CITY is not practical, then the USER shall give oral notice of the restriction as soon as reasonably possible to be followed in writing with a full description of the circumstances justifying the restriction.

8. **INABILITY TO DELIVER.**

   If and when situations occur where the CITY cannot deliver the reclaimed water, the CITY shall notify the USER by telephone and follow up with a letter stating the nature of the disruption of service and the anticipated duration. Notwithstanding this paragraph, if CITY is unable to provide the reclaimed water required in the amounts set forth in Paragraph 6, CITY shall immediately obtain and deliver other sources of water in the same quantities as set forth in Paragraph 6.

9. **DISCLAIMER OF WARRANTIES.**

   (a) **Express Warranties.** The CITY disclaims all express warranties except those that appear in paragraph 4 of this Agreement. The CITY does not represent nor warrant that the reclaimed water delivered to the USER shall increase the productivity of the irrigated property or result in any changes to the land, crops, or vegetation. Further, the use of any plans, specifications, water quality analysis or treated wastewater sampling during the negotiations leading to this contract serve to merely indicate the general quality of reclaimed water which will be delivered to the USER. Such plans, specifications, water quality analysis or treated wastewater samples create no warranty that the reclaimed water delivered by the CITY will conform to these items.
(b) **Implied Warranties.** Except as provided in paragraph 14 of this Agreement, the CITY disclaims any implied warranties of merchantability or fitness of the reclaimed water delivered under this contract for any purposes.

10. **ASSIGNMENT.**

The CITY shall have the right to transfer all or any part of the treatment or distribution facilities to another public utility and to assign all or any part of its rights and obligations under this Agreement to another public utility who shall be bound by and accept, and be responsible for all applicable terms and conditions of this Agreement. Notwithstanding the CITY's ability to transfer the CITY's obligations under this Agreement, the CITY shall remain primary liable for the obligations of this Agreement if the transferee is unable to perform the obligations herein. USER may assign this Agreement to any entity or person that is purchasing, leasing or managing the Property so long as USER provides CITY written notice of the proposed transaction.

11. **EXCUSE FROM PERFORMANCE BY GOVERNMENTAL ACTS.**

If for any reason during the term of this Agreement, local, state or federal governments or agencies shall fail to issue necessary permits, grant necessary approvals, or shall require any change in the operation of the treatment, transmission and distribution systems or the application and use of reclaimed water, then CITY shall, at CITY's expense, arrange for alternative sources of water in the same quantities as described herein.

12. **PERMITS OR NECESSARY GOVERNMENTAL APPROVAL.**

CITY, at CITY's expense, shall obtain and maintain all local, state or federal permits or approvals necessary to provide water (potable, nonpotable or reclaimed) pursuant to the terms of this Agreement.

13. **SALE OR ENCUMBRANCE OF LAND.**

The USER's right to sell, transfer or encumber the land described in Paragraph 1(a) shall not be restricted by this Agreement.

14. **INDEMNIFICATION.**

(a) The USER shall indemnify and hold harmless the CITY, including its officers, directors, employees and agents, against any and all claims, actions, suits, proceedings, costs, expenses, damages or liabilities arising out of any injury, illness or disease to persons or property caused, in whole or in part, by the reclaimed water furnished by the CITY to the USER hereunder except for: (i) negligence or intentional misconduct by CITY, its agents, or contractors; or (ii) breach of the City's obligations under paragraph 4 of this Agreement.

(b) The USER shall save and hold harmless and indemnify the CITY, its officers, directors, agents, representatives and employees from all claims, costs, penalties,
15. **ACCESS.**

The CITY shall have the right, at all reasonable times, to enter upon the Property of the USER to review and inspect the Transmission Lines and Irrigation System and operations of same to verify the conditions agreed to herein; provided, however, CITY shall use all reasonable efforts to conduct such inspections so that they do not interfere with golf play, maintenance or activities on the property.

16. **MISCELLANEOUS.**

(a) **Health and Safety.**

The CITY shall comply with all TNRCC regulations relating to the use of reclaimed water upstream of the Point of Delivery. The USER shall comply with all TNRCC regulations relating to the use of reclaimed water downstream of the Point of Delivery.

(b) **Operation and Maintenance Practices.**

1. The USER will take all reasonable precautions and comply with all applicable TNRCC regulations, including signs and labeling on USER's Property, to clearly identify reclaimed water systems to prevent inadvertent human consumption.

2. The USER shall ensure that no inter-connections are made between the reclaimed water systems and other water systems. This shall not prohibit the storage of potable water, stormwater, surface water, well water and reclaimed water in a common storage facility if a CITY approved backflow prevention system is provided.

3. If required to do so by the TNRCC, USER shall give its approval to the CITY to conduct soil borings and locate monitoring wells at the perimeter of the Property in areas agreeable to the USER so as not to interfere with USER's operations. The actual cost of such tests and/or monitoring wells shall be borne by the CITY if the reason for such action is found to be upstream of the Point of Delivery. The cost of such tests and/or monitoring wells shall be borne by USER if the reason for such action is found to be downstream of the Point of Delivery. If the reason for such tests or monitoring wells are unknown or if the tests or monitoring results in no negative findings, the actual cost of such test or monitoring shall be
shared equally between CITY and USER. These monitoring wells shall be installed and sampled at periodic intervals by the CITY if required as part of the permit for the reclaimed water system.

17. **DISCLAIMER OF THIRD PARTY BENEFICIARIES.**

This Agreement is solely for the benefit of the formal parties hereto and except as expressly provided herein, no right or cause of action shall accrue upon or by reason hereof, to or for the benefit of any third party not a formal party hereto.

18. **SEVERABILITY.**

If any court finds any part of this Agreement invalid or unenforceable, such invalidity or unenforceability shall not affect the other parts of this Agreement if the rights and obligations of the parties contained therein are not materially prejudiced and if the intentions of the parties can continue to be effective. To that end, this Agreement is declared to be severable.

19. **BINDING UPON SUCCESSORS.**

This Agreement shall be binding upon and shall inure to the benefit of the successors or assigns of the parties hereto. The terms and obligations of this Agreement shall run with the land referenced in Paragraph 1(a).

20. **APPLICABLE LAW.**

This Agreement and the provisions contained herein shall be construed, controlled, and interpreted according to the laws of the State of Texas. This Agreement is performable in Brazos County, Texas.

21. **RESTRICTED FUNDING.**

City's obligations under this Agreement shall be performed using only those lawfully available current funds of the City that are made available through annual budgeting and appropriation by the Bryan City Council. Nothing in this Agreement shall ever be construed as a pledge of funds raised from ad valorem taxes.

22. **NOTICES.**

All notices required or authorized under this Agreement shall be given in writing and shall be served by mail on the parties at the addresses listed below, as may be changed from time to time by providing the other party with written notice:

23. TERMINATION.

Both USER and CITY acknowledge that this Agreement shall terminate should USER fail to acquire the real property which is the subject matter of the Development Agreement.

24. ENTIRE AGREEMENT.

This written Agreement constitutes the entire agreement between the parties. Modifications to and waivers of the provisions herein shall not be binding unless made in writing and signed by the parties hereto.
IN WITNESS WHEREOF, the parties hereto have set their hands and seals on the date first above written.

Consideration:

Ten and No/100 Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and the further consideration of the execution and delivery by Grantee of that one certain promissory note of even date herewith in the original principal sum of THREE MILLION AND NO/100 DOLLARS ($3,000,000.00), payable to the order of Grantors herein, in annual installments and bearing interest as therein provided, containing the usual clauses providing for acceleration of maturity and for attorney's fees (herein the "Note"). The Note is secured by a vendor's lien retained in favor of Grantor herein, in this Deed and a deed of trust of even date from Grantee to Jay Don Watson, Trustee.

Property:

TRACT 1:
That certain 417.85 acre tract or parcel of land, lying and being situated in the J. H. JONES SURVEY, Abstract No. 26, Brazos County, Texas, and being more particularly described by metes and bounds on Exhibit "A" attached hereto and incorporated herein for all purposes.

SAVE & EXCEPT:
That certain 87.20 acre tract or parcel of land, lying and being situated in the J. H. JONES SURVEY, Abstract No. 26, College Station, Brazos County, Texas, being more particularly described by metes and bounds on Exhibit "B" attached hereto and incorporated herein for all purposes.

SAVE & EXCEPT:
That certain 2.81 acre tract or parcel of land and its appurtenant thirty-five foot (35') wide access easement, lying and being situated in the J. H. JONES SURVEY, ABSTRACT NO. 26, Brazos County, Texas, being more particularly described by metes and bounds on Exhibit "C" attached hereto and incorporated herein for all purposes.

SAVE & EXCEPT:
That certain 2.89 acre tract or parcel of land and its appurtenant thirty-five foot (35') wide access easement, lying and being situated in the J. H. JONES SURVEY, ABSTRACT
NO. 26, Brazos County, Texas, being more particularly described by metes and bounds on Exhibit “D” attached hereto and incorporated herein for all purposes.

SAVE & EXCEPT:
Those certain 0.37 acre and 0.90 acre tracts or parcels of land, lying and being situated in the J.H. JONES SURVEY, ABSTRACT NO. 26, College Station, Brazos County, Texas, being more particularly described by metes and bounds on Exhibit “E” attached hereto and incorporated herein for all purposes.

TRACT 2:
Further Save and Except and Grantor does hereby reserve and retain the fee simple title in all that certain 0.12 acre tract or parcel of land, lying and being situated in the J.H. JONES SURVEY, ABSTRACT NO. 26, College Station, Brazos County, Texas, being more particularly described by metes and bounds on Exhibit “F” attached hereto and incorporated herein for all purposes, for a “Term of Years” as defined below and does grant, sell and convey to Grantee, its successors and assigns the remainder interest.

Term of Years shall mean the lease term of (i) that certain lease by and between Grantor herein and SprintCom, Inc. recorded in Volume 3498, Page 300, Official Records of Brazos County, Texas; (ii) any written extension of such lease, or (iii) any new lease entered into for the sole purpose of providing a radio telecommunications tower site, but only in the event such lease is executed in writing within ninety (90) days of the expiration of the then existing lease, whether such existing lease is the original lease, an extension of the same or a new lease entered into in the 90-day time frame set forth above. In any and all events the Term of Years shall terminate on December 31, 2075, if not sooner terminated.

The definition of Property hereunder shall exclude the following described improvements: (i) the house, garage, well house, pool, pool house, greenhouse and fencing and all appurtenant improvements, commonly known as the M.L. Cashion homesite, (ii) any barns, pens, chutes, feeders or other structures useful for and in the care and maintenance of livestock; (iii) any sheds or other structures used for the storage of farm and ranching equipment; and (iv) any interior fencing including but not limited to posts, stays, wire, gates and cattleguards, all of in which Grantor herein is specifically retaining and reserving title to.

MINERAL RESERVATION:

Trust, Grantor and Trust’s and Grantor’s heirs, successors, and assigns forever, hereby reserves all oil, gas, and other related minerals in and under and that may be produced from the Property. If the mineral estate is subject to existing production or an existing lease, this reservation includes the production, the lease, and all benefits from it other than use of the surface of the Property, except as hereinafter provided with respect to Access Routes and Drill Sites and all water. Trust and Grantor waive and convey to
Grantee the right of ingress and egress to and from the surface of the Property relating to the portion of the mineral estate owned by Grantor except as to the Access Routes and Drill Sites described in the following paragraph. Nothing herein, however, restricts or prohibits the pooling or unitization of the portion of the mineral estate owned by Grantor and/or Trust with land other than the Property; or the exploration or production of the oil, gas, and other related minerals by means of wells that are drilled or mines that open on land other than the Property but enter or bottom under the Property, provided that these operations in no manner interfere with the surface, water or subsurface support of any improvements constructed or to be constructed on the Property.

Further Trust, Grantor and Trust’s and Grantor’s heirs, successors, and assigns, hereby reserves non-exclusive easements in and to the free and uninterrupted use of the drill sites on the Property (“Drill Sites”) pursuant to the easement granted by Grantee of even date herewith to explore and produce the oil, gas, and other related minerals in and under that may be produced from the Property, together with access to and from the Drill Sites over the access routes on the Property (“Access Routes”). Grantee may, at Grantee’s sole discretion, at any time and from time to time, re-route or re-locate the Drill Sites or Access Routes which are not then in use for mineral development, provided that neither Grantor nor Trust shall bear any cost with respect to such re-location nor be denied access to the Drill Sites for a period of time in excess of five (5) consecutive days during any re-routing or re-location of the Access Routes by Grantee. Provided further that the relocation of the Drill Sites shall be at locations that would not prevent the Trust or Grantor or their Lessees from fully exploring the Property for oil, gas and other minerals. Grantor and Trust waive the right to explore and develop from the surface of the Property the portion of the mineral estate owned by Grantor and/or Trust, other than on or from the Drill Sites and the use of the Access Routes to access the Drill Sites and to transport production therefrom including pipelines.

The Tract 1 portion of the Property shall be bound by the following restrictions:

Tract 1 of the Property shall be and is hereby restricted to use as a golf course/residential community project and all the infrastructure and appurtenances necessary for the development of the Property for such use. This restriction shall expire and be no longer enforceable against the Property at such time as the Note is paid in full and upon the recording in the Official Records of Brazos County of a release of lien for that certain Deed of Trust dated of even date herewith securing payment of the Note. In the event Grantor forecloses its lien or liens securing payment of the Note, the restriction on any portion of the Property previously conveyed to Grantee shall remain restricted; however, any land foreclosed upon by Grantor shall no longer be restricted.

To the extent that the same are presently valid and subsisting against the Property, this conveyance and the representations and warranties contained herein is also made subject
to and the rights contained therein, but not in assumption of, the following:

(1) Easement executed by H. E. Burgess, et ux to the City of Bryan, dated February 9, 1950, recorded in Volume 141, Page 517, Deed Records of Brazos County, Texas.

(25) All oil, gas and other minerals, together with the rights of ingress and egress for developing, mining, producing and transporting the same, heretofore reserved or conveyed by predecessors in title.

Grantor, for the consideration and subject to the reservations from and exceptions to conveyance and warranty, grants, sells and conveys to Grantee the Property, together with all and singular the rights and appurtenances thereto in anywise belonging, to have and hold it to Grantee, Grantee's successors or assigns forever. Grantor binds Grantor and Grantor's, successors and assigns, to warrant and forever defend all and singular the Property to Grantee and Grantee's, successors and assigns forever, against every person whomsoever lawfully claiming or to claim the same or any part thereof, except as to the reservations from and exceptions to conveyance and warranty, when the claim is made by, through or under Grantor, but not otherwise.

The vendor's lien against and superior title to the Property are retained until each note described is fully paid according to its terms, at which time this deed shall become absolute.

GRANTEE ACKNOWLEDGES THAT GRANTOR HAS NOT MADE AND DOES NOT MAKE ANY REPRESENTATIONS AS TO THE PHYSICAL CONDITIONS OF THE PROPERTY, OR ANY OTHER MATTER AFFECTING OR RELATED TO THE PROPERTY (OTHER THAN WARRANTIES OF TITLE AS PROVIDED AND LIMITED HEREIN). GRANTEE EXPRESSLY AGrees THAT TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE PROPERTY IS CONVEYED "AS IS" AND "WITH ALL FAULTS", AND GRANTOR EXPRESSLY DISCLAIMS, AND GRANTEE ACKNOWLEDGES AND ACCEPTS THAT GRANTOR HAS DISCLAIMED, ANY AND ALL REPRESENTATIONS, WARRANTIES OR GUARANTEES OF ANY KIND, ORAL OR WRITTEN, EXPRESS OR IMPLIED (EXCEPT AS TO TITLE AS HEREIN PROVIDED AND LIMITED) CONCERNING THE PROPERTY, INCLUDING,
