**OSSF Notes**  
 Sanitary sewage treatment and disposal will be provided by On-Site Sewage Facility (OSSF) systems.

- All proposed lots to be served by OSSF shall comply with all applicable County and State regulations including the minimum lot requirements required by Brazos County. Property that will use an on-site sewage facility (OSSF) for sewage disposal shall be evaluated for overall site suitability. The results of a site evaluation, conducted according to 30 TAC §285.30 prepared by a licensed Site Evaluator or Texas Professional Engineer shall be required before approval of an OSSF by the permitting authority.
- A complete permit application form, fee and the required planning materials approved by the permitting authority are required prior to the issuance of authorization to construct (ATC) for all OSSF in Brazos County regardless of the acreage of the tract. No OSSF shall begin construction in Brazos County prior to the issuance of the ATC.
- OSSF planning materials shall include the required topography analysis for each tract and demonstrate to the satisfaction of the permitting authority in the design Technical Report and Site Drawings the suitability of the proposed disposal method for the slope and drainage features of each tract to ensure protection of surface and ground waters of the State.
- No parts of the OSSF shall encroach upon the sanitary easement or separation requirements for water wells. Any existing wells shall be indicated on the plat and a copy of the TW09 plugging report is required to be provided with the OSSF application and planning materials.
- No OSSF treatment or disposal components may encroach into any area reserved as a Public Utility Easement (PUE) without a variance being requested and approved by the permitting authority. Variance will be reviewed and approved on a case-by-case basis. Proposed encroachments into pipeline and electrical transmission easements shall require both the approved variance by the permitting authority and all letters of permission described in §285.91.10) or as required by the permitting authority in support of any approved variance. All underground and overhead easements must be clearly delineated on the Subdivision Plat with dimensions indicated.
